GLOSSARY OF COMMONLY USED TERMS

Programme: Is a group of outputs, that is, of services provided to or for the direct benefit of the community. The outputs grouped together under a programme will after share not only a common intended outcome, but other common characteristics such as a shared mode of intervention or common client group.

Project: A project is a set of coordinated activities implemented to meet specific objectives within defined time, cost and performance parameters. Projects aimed at achieving a common goal form a programme.

Outcomes: Outcomes are changes which development interventions bring about on individuals, social structures or the physical environment.

Outputs: Outputs are the services/goods delivered to, or for the direct benefits of, external parties in order to achieve an outcome.

Performance indicators: Performance indicators are quantitative measures which provide information on effectiveness, efficiency and equity result of projects/programmes and organizations. Types of performance indicators that can be developed under projects and programmes include effectiveness (outcome) indicator, output efficiency indicator, output quality indicator and output equity indicator.

FOREWORD

The preparation of the Annual Development Plan (ADP) is articulated in Article 220 (2) of the constitution and Section 126 of the Public Finance Management Act, 2012. The ADP is envisaged to capture the strategic priorities for the medium term that reflect the county government's priorities and plans; description of how the county government is responding to changes in the financial and economic environment; programmes to be delivered with details for each programme relating to services or goods to be provided; measurable indicators of performance and budget allocated to the programme.

The ADP further captures payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid; description of significant capital developments; detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county and a summary budget.

The ADP is linked to the National and International commitments (Vision 2030, Agenda 2063 of the African Union, Sustainable Development Goals (SDGs) among others through the 2018-2022 CIDP, MTEF and sectoral plans

The ADP was prepared through a consultative process. The foundation of the ADP ie the CIDP captures the people's aspiration through a thorough process of public engagement. From the CIDP, the departments identified their key priority strategies for the year.

The 2020/2021 ADP will be financed from the key county resources basket which include the national government allocation, conditional and unconditional grants, County's own source revenue and support from development partners.

In order to realize the County vision of "the greatest county with the best quality of life", all efforts will be put in place to address the myriad of challenges facing the people of Laikipia. The experience and lessons learnt from implementing the 2018/2019 ADP will critical during the implementation phase of these plans.

ACKNOWLEDGEMENT

The preparation of the ADP is a highly consultative exercise requiring the inputs from various stakeholders. The role of each stakeholder is critical in order to capture their strategic priorities for the realization of a well-developed plan that will guide the development process during the financial year.

The preparation of the ADP benefitted from insights by H.E the Governor and H.E the Deputy Governor who gave the strategic direction and leadership of the process. The County Executive Committee Members provided leadership in the respective departments towards the preparation of the plan.

The strong ADP public participation teams and the sector working group members from the 8 County departments and the ward under the leadership of the respective chief officers contributed immensely to the preparation of the Plan through articulation of the department's strategic priorities, proposed programmes and projects, the estimated budgets and a clear Monitoring and Evaluation framework which were key towards the completion of the process.

I highly recognize the officers from planning directorate under the leadership of the director who worked tirelessly to ensure that the document was delivered in good time and form.

PAUL NJENGA
AG CHIEF OFFICER,
FINANCE AND ECONOMIC PLANNING

LAIKIPIA COUNTY

EXECUTIVE SUMMARY

The preparation of the Annual Development Plan (ADP) is articulated in Article 220 (2) of the constitution and Section 126 of the Public Finance Management Act, 2012. The ADP is envisaged to capture the strategic priorities for the medium term that reflect the county government's priorities and plans. It was prepared with a view of partial implementation of the second generation County Integrated Development Plan (CIDP) for the year 2018-2022. In making this plan, several factors were taken into consideration among them the strategic priorities of the county while taking cognizance of the challenges experienced and the lessons learnt when implementing the previous ADPs.

The Plan adopted a sectoral approach anchored on Laikipia Vision "The greatest county with the best Quality of life". To achieve this, the CIDP 2018-2022 which was formulated after extensive public engagement was a critical reference point in the identification of the strategic priorities in each sector.

The ADP 2019/2020 has six chapters and these are outlined as follows:

The First chapter provides a brief overview of the county. It entails the administrative units and political units, population, physiographic and natural conditions, the linkage of the ADP with other plans and the ADP's preparation process. It covers an area of 9,462km² and ranks as the 15th largest county in terms of the land size. The county has five administrative sub counties, three constituencies namely Laikipia East, Laikipia West and Laikipia North with a total of 15 electoral wards. Its population is projected to stand at 577,791 persons in 2020 and expected to rise to 615,925 by 2022.

The Second Chapter provides a summary of the review of the implementation of the 2018/2019 ADP. The section covers the sector achievements, planned and actual budget allocated, analysis of programmes and the capital and non-capital projects implemented during the 2018/2019 for each of the 8 departments. In addition to that, it highlights the challenges experienced during the implementation of the 2018/19 ADP, the lessons learnt, and the key recommendations.

The Third Chapter discusses the county strategic priorities, programmes and projects as identified by stakeholders through the participatory process. In addition to that, the chapter identifies the key stakeholders in each sector while it also specifies their roles. It also highlights the capital and non-capital projects in each sector as well as the cross-sectoral consideration.

The Fourth Chapter provides a summary of the proposed budget by programmes and sector. Also, it discusses the various risks, assumptions and mitigation measures from each department. Adding to that, the chapter describes some of the financial and economic constraints as well as how the county is responding to these challenges.

The Fifth chapter discusses the monitoring and evaluation framework. This framework provides a basis of tracking the implementation of the programmes as outlined in the ADP2019/20. Also, it outlines the data collection, analysis and reporting mechanisms as outlined in the County Integrated, Monitoring, and Evaluation

System(CIMES).

CHAPTER 1: INTRODUCTION

1.1 OVERVIEW OF THE COUNTY

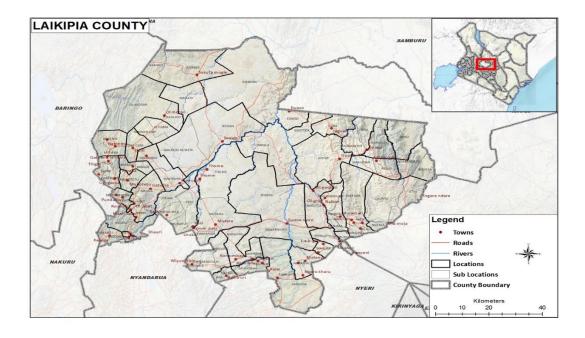

Laikipia County is one of the 47 counties in the Republic of Kenya in the Central Rift Valley region. The county is cosmopolitan with about 23 communities comprising of Maasai, Samburu, Rendile, Somali, Pokots, Kalenjins, Meru, Kikuyu, and Turkana among others. The county is largely rural in settlement with the main economic activities being crop farming, livestock rearing, tourism, retail and wholesale trade. The county is a member of the Central Region Economic Bloc (CEREB) and Amaya Triangle Initiative.

It covers an area of 9,462 km² and ranks as the15th largest county in the country by land size. Laikipia borders Samburu County to the North, Isiolo County to the North East, Meru County to the East, Nyeri County to the South East, Nyandarua County to the South, Nakuru County to the South West and Baringo County to the West.

1.1.1 Administrative Units and Political Units

Laikipia County comprises of five administrative sub counties (formerly districts) namely Laikipia East, Laikipia North, Laikipia West, Laikipia Central and Nyahururu. The sub county headquarters are at Nanyuki, Doldol, Rumuruti, Lamuria and Nyahururu respectively. The county is further sub-divided into 17 divisions,

The county has three constituencies namely; Laikipia East, Laikipia West and Laikipia North. There are 15 electoral wards; 5 in Laikipia East (Ngobit, Tigithi, Thingithu, Nanyuki, Umande), 6 in Laikipia West (Olmoran, Rumuruti Township, Githiga, Marmanet, Igwamiti, Salama) and 4 in Laikipia North (Mukogodo East, Mukogodo West, Segera, Sosian) constituencies as shown in Map 1

1.1.2 Population

According to the 2009 KNBS Housing and Population Census, the total population for the county stood at 399,227 people of which 198,625 were males and 200,602 were females This population is projected to be 577,791 persons in 2020. It is expected to rise to 615,925 in 2022. For Under 1 year population, the numbers are projected to stand at 17,605 and 18,767 by 2020 and 2022 respectively. Under 5 years, the numbers are projected to increase to 84,719 and 90,310 by 2020, 2022 respectively.

For Primary School Age (6-13), the numbers are projected to increase to 127,378 and 135,785 by 2020 and 2022 respectively.

For Secondary School Age (14-17), this population is projected to increase to 50,025 and 53,326 in 2020 and 2022. For youth population (15-29), the population is projected to stand at 155,065 and 165,299 in 2020 and 2022 respectively. For female reproductive age (15-49), the numbers are projected to be 139030 and 148,206 in 2021 and 2022. The Labour Force (15-64) is projected at 311,098 and 331,630 in 2020 and 2022. The Aged Population (65+) is projected to stand at 23,316 and 2020 and 2022.

For population density, Laikipia East and Laikipia West constituencies are the more densely populated of the three constituencies with population densities of 82 and 81 persons per Km² in 2009 and projected to 105 and 104 persons per Km² in 2020. Laikipia North had a population density of 13 persons per Km² in 2009 and is projected at 17 persons per Km² in 2020.

1.1.3 Physiographic and Natural Conditions

The altitude of Laikipia County varies between 1,500 m above sea level at Ewaso Nyiro basin in the North to a maximum of 2,611 m above sea level around Marmanet forest. The County consists mainly of a plateau bordered by the Great Rift Valley to the West, the Aberdares mountain ridge to the South and Mt. Kenya to the South East.

The main drainage feature is Ewaso Nyiro North basin with its tributaries having their sources in the slopes of the Aberdares and Mt. Kenya. These tributaries include Nanyuki, Timau, Rongai, Burguret, Segera, Naromoru, Engare, Moyok, Ewaso Narok, Pesi and Ngobit rivers.

The Southwestern part of the county has the highest potential for forestry and mixed farming due to its favourable climatic conditions. The eastern and northern parts of the county are suitable for grazing while the plateau lying in the central and the northern parts of the county is suitable for ranching.

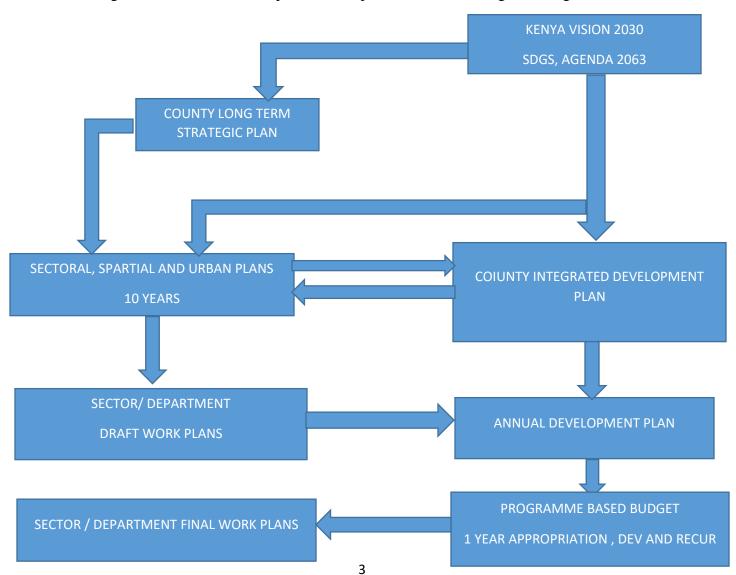

The county is endowed with pastureland, rangeland, forests, wildlife, undulating landscapes and rivers among others. The high and medium potential land, which is suitable for crop farming, constitutes 20.5 per cent of the total county's land area. The remaining 79.5 per cent is low potential and suitable for livestock and wildlife. The major soils in the county are mainly loam, sand and clay.

The county has a gazetted forest area totalling to 580 Km² comprising of both the indigenous and plantation forests. Laikipia County is richly endowed with wildlife widely distributed in most parts of the county extending to Aberdare, Samburu, Meru and Mt. Kenya wildlife corridors. Most of the wildlife is found in the large-scale private ranches, which occupy over 50 per cent of the total area of the county.

The county experiences a relief type of rainfall due to its altitude and location. The annual average rainfall varies between 400mm and 750mm. The areas nearest to the slopes of Mt. Kenya and the Aberdare Ranges record higher annual rainfall totals. North Marmanet receives over 900mm of rainfall annually; while the drier parts of Mukogodo and Rumuruti receive slightly over 400mm annually. The Laikipia plateau receives about 500mm of rain annually, while Mukogodo Forest receives an average rainfall of about 706mm annually. The northern parts of the county represented by Dol Dol receive lower rainfall compared to the southern parts.

1.2 LINKAGE OF THE ADP WITH OTHER PLANS

The linkage of the ADP with other plans is as depicted in the following flow diagram

1.3 Preparation process of the Annual Development Plan 2019/ 2020

The preparation process of the Annual Development Plan involved a wide range of departmental consultations and involvement. This was in addition to a wide range of public consultation involving engaging members of the public at the location level. Ward teams were constituted to engage the public at four strategic venues across the ward over two days. The output from the ward meetings in form of a report detailing project names, specific activities, location and status was developed and it was a critical to the finalization of the strategic priorities in the ADP.

The second County Integrated Development Plan (CIDP) 2018-2022 which was developed with wide public consultations was also a key reference document. In addition, the public participation report for the development of the County Fiscal Strategy Paper for 2019/2020 budget capturing the priorities at the sub location levels was also utilized.

The draft document was subjected to the departmental review process before being submitted to the County Executive Committee for adoption and approval for submission to the county Assembly.

CHAPTER TWO: REVIEW OF THE IMPLEMENTATION OF THE 2018/2019 ADP 2.1 Introduction

This chapter provides a summary of what was planned and what was achieved by the department in implementation of 2018-2019 Annual Development Plan. It also indicates the overall budget in the ADP versus the actual allocation and expenditures as per department.

2.3. Sectors Achievements in the 2018/19

2.3.1. Water, Environment and Natural Resource Sector

The Strategic Priorities of the Sector

- Development in new water harvesting infrastructures and rehabilitation of existing water supply sources (dams, boreholes, springs, storage tanks) as well as establishment of new water schemes
- Investments in human-wildlife conflict mitigation initiatives such as electric fencing, community patrols and strengthening resource user associations.
- Management of wastes and drainages for a safe and secure environment through acquisition of dumpsites, cemeteries and garbage collection trucks.
- Interventions on climate change adaptation and mitigation, disaster reduction, increasing community resilience ad livelihoods.
- Strengthening of collaborations with the national government and development partners on rangeland management, wetland and forestry protection, development of mega dams and irrigation schemes.
- Promote mineral's exploration and extraction in the county to support industrialization.

Challenges experienced during Implementation of the previous ADP

- Delay in the disbursement of funds by the national government
- Climate change and changes in the weather pattern often hamper timely implementation of projects such as dams' rehabilitation, compaction and rehabilitation of dumpsites, eradication of Opuntia, timely tree planting and growing and construction of greenhouses for propagation of cochineal bacteria that feeds on *OpuntiaStricta*
- The vastness of Laikipia County and remoteness of some wards delays the time taken to implement projects within the planned timeframe

2.3.2 Agriculture, Livestock and Fisheries

The strategic priorities of the Sector

- Attainment of household food and nutritional security and food safety
- Improved and intensified agricultural production
- Improved access to appropriate, quality and affordable farm inputs
- Facilitate promotion of appropriate and cost-effective extension services for different agroecological zones
- Minimize post-harvest losses and to cushion farmers against losses
- Promote marketing of high quality agricultural produce and products at competitive prices
- To upscale agribusiness and value addition
- To economically empower all agricultural value chain actors
- To provide for economically viable, socially equitable and environmentally sustainable use of agricultural land

Key Achievements

Crops section

- The Laikipia County Innovation Fair was conducted in Nyahururu Stadium where attendance was 5,252 persons (4,501M and 6,751 F).
- The World Food Day was celebrated A total of 816 farmers attended the two events.
- Nanyuki depot moved 10,171 bags of DAP, 4,456 bags of CAN, 1,115 bags of 23:23:0, 11,343 bags of 17:17:17, 2,750 Organic hyper phosphates, 573 bags of SSP, 792 bags of Mavuno topdressing and 601 bags of Baraka Blend 9/10.
- 13 field staff were trained on soil sampling and soil fertility management.
- The County and National Governments facilitated collection and analysis of 1,446 soil samples from around the County
- 2 Soil testing kits are under procurement
- 315 farms were conserved across the County

- 60 line levels acquired
- 24,167 suitable tree seedlings were planted in the farms.
- 15 agroforestry tree nurseries were promoted
- 3.5MT drought-escaping crops were distributed.
 - 6,000 assorted high value fruit seedlings planted
 - 22 nurseries were boosted with tools and equipment. each received a water tank (2300l), one hose pipe, one-wheel barrow, one grafting knife, one pair of secateurs and a slasher
 - The 40 CA groups previously established were backstopped and equipped with hand tools.
 - 2 CA exchange visits were conducted.

Irrigation Section

Constructed 156 house hold water pans of capacity 400cubic metres; 35 drip kits installed; rehabilitation of 2 earth dams; drilling of 1 borehole;

Livestock section

Procurement and distribution of pasture / fodder seeds to farmers throughout the county.

- Pasture seeds distributed were (Rhodes grass and Elba grass) 1950 kgs;
- Desmodium seeds (100 kgs) Lucerne seeds (200 kgs) Oats seeds (300 kgs).
- Procurement and distribution of Bee-keeping equipment / tools to the farmer groups throughout the county:- KTBH Hives 170; Langstroth hives and their stands 100; Smokers 30; Observation hives 4; Solar waxes 4; Bee suits -20; Gloves 40; Catcher boxes 12; Feeder boxes 40; Bee brushes 40 Queen excluders 20; Pulverizers / silage choppers 44; Silage tubes 10; Urea 20bags; Molasses 200 jerigans of 20 ltrs each; Range cubes 707 bags; Drought pellets- 556 bags; UMMB Mineral blocks 3,465 blocks of 2.5 kgs each. Manual hay balers 6 pcs; Motorized grass cutters 6 pcs;
- Rangeland reseeding of 335 acres in Tiamamut & Musul group ranches using 900 kgs of Cenchrus, Eragrostis and Enteropogon grasses.

Veterinary section

- 221,401 number of animals vaccinated.
- 360 liters of acaricide were supplied to dips
- 4362 documents of movement permits were issued
- 115972 slaughtered animals inspected
- 102221 hides and skins under leather development were done.

Fisheries section

267,000 Fish fingerlings distributed to fish farmers; 160,000 Fish fingerlings stocked in 16 public community managed dams; 16 fish ponds were rehabilitated in Rumuruti fish farm; Rehabilitated Rumuruti fish farm fence; 100 fish farmers were trained through on farm training; Ksh 50,000/= realized as revenue; 267,000 Fish fingerlings distributed to fish farmers; 160,000 Fish fingerlings stocked in 16 public community managed dams; 16 fish ponds were rehabilitated in Rumuruti fish farm; Rehabilitated Rumuruti fish farm fence; 100 fish farmers were trained through on farm training; Ksh 50,000/= realized as revenue

ASDSP (Agriculture Sector Development Support Programme)

- 105 capacity build farmers on feed establishment, conservation and utilization.
- Conducted a survey to establish the hay status in terms of production, productivity and profitability.
- In collaboration with CETRAD constructing a milk cooler house and procuring a cooler plant Unmade Dairy cooperative members
- Capacity build 120 cooperatives on value addition, Milk safety and standards.
- In collaboration with SNV-Netherlands prepared a county dairy policy
- The Programme teamed up with world vision to train 35 VCA on marketing, enterprise development, leadership skills and resource mobilization.

Challenges experienced during Implementation of the previous ADP

- Inadequate Recurrent budget allocation to effectively sustain departmental activities. Most departmental activities involve field work. For instance, physical planning activities, survey, project design, project supervision, project inspection, development control and enforcement, facilitation of truck drivers, plant and equipment operators, mobilization and demobilization of construction equipment(s) to diverse project sites etc.
- Voluminous and late submission of projects documentation requests by implementing departments
- Limited number of competent personnel to produce projects documentation and supervision
- Lack of projects design and supervision vehicles to enable mobility between different sites
- Limited number of competent personnel to carry out building inspection, development control and enforcement
- Exchequer request taking time to process from the time of request to when funds are released to the county
- Obliteration of submitted recommended budget by the County Assembly without reverence to the implementing department.
- Unclear project implementation methodology/approach by the executive. For instance, confusion between using leased equipment, own equipment, contractual approach, cooperation with other governmental agencies (e.g. MTF, NYS). This delays commencement of implementation of projects

Lessons learnt and recommendations

The following are recommendations geared towards enhancing the efficiency of the department in implementation of ADP;

- Being a fieldwork-oriented department, there is absolute need to consider increasing the budget ceiling for the department to enable allocation of adequate recurrent budget vote
- Individual departments to source for consulting firms (prequalified and or open tender depending on complexity of proposed projects) to prepare project(s) documentation for approval by the department. Selected projects could be considered for supervision by consultants under overall supervision by the department
- The department to formulate a strategic plan on roads construction to guide its development path. The department should be clear on an ideal approach to implement roads construction projects and set milestones towards an end.
- The department to be equipped with at least 6 dedicated vehicles (viz; two (2) for development control and enforcement; two (2) for public works projects design, supervision and inspection; two (2) for roads supervision;
- Department to continuously dialogue with the County Assembly committee in-charge of roads to explain departmental priorities to mitigate obliteration of proposed budget.
- County Public Service Board to adequately staff the department with competent staff as per the proposed organogram. In the minimum, there is need to have at least 2 (two) registered civil engineers, one for Laikipia East Block and Laikipia West block; 2 physical planners
- To reduce the cost of mobilization of roads construction equipment, there is critical need to procure a 'low-loader' truck

2.3.5 Trade, Tourism and Co-operatives Development

The Strategic Priorities of the Sector

- Improvement of business environment and enhancing fair trade practices
- Marketing of Laikipia as a tourist destination
- Revitalizing co-operatives societies for economic growth
- Strengthening and providing affordable and accessible credit facilities
- Promoting investment and industrialization in the county
- Promoting innovation programmes in the county
- Improved funding to foster employment and wealth creation, alleviate poverty and support the productive sectors of the economy

Key Achievements

- The department undertook reforms in Performance Management Systems by use of technology based performance monitoring tool where departmental and individual work plans are uploaded, KPIs updated and daily/weekly performance is tracked through timesheets.
- To strengthen PMS, the department contracted KPMG, a HR consultant who developed a county
 performance management framework and established a result matrix through which performance is
 tracked.
- A new County Public Service Board was recruited.
- The Board conducted a staff perception survey, embarked on developing a staff establishment and began staff audit.
- The department organized quarterly staff meetings and spot awards in the three sub-counties.
- Staff welfare matter were addressed through procurement of insurance services i.e. group life assurance, WIBA, Group personal accident cover and group medical scheme.
- Personnel actions like promotions, staff training, confirmations in appointments and re-designations were undertaken
- The department coordinated public participation for ADP 2018-2019, CFSP 2019 and Budget estimates. The views collected were documented, classified and incorporated in the budget.
- The department constructed and commissioned six (6) floodlights across the county.
- Continuous repair and maintenance of street and flood lights was done in enhancement of security and increased business hours in various urban centers across the county.
- The fire unit continued to respond to fire disasters and other rescue services while still offering support in neighboring counties.
- Liquor outlets were licensed to operate raising a considerable amount in revenue.
- The enforcement team continued to offer enforcement support to departments mainly in revenue department and infrastructure (building inspection) leading to enhanced revenue collection.
- Enforcement team embarked on guarding county installations and institutions
- ICT continued to offer ICT support on systems security and maintenance.
- Providing legal and legislative support to the county.
- Reporting on budget utilization; project status; annual score card and quality of service delivery
- Enhancing Inter County cooperation and initiating programmes to mitigate community conflict and promote peaceful coexistence

Challenges experienced during implementation of the previous ADP

- The department does not have adequate vehicles. This makes it difficult to operate as it has various projects which require supervision and monitoring of programmes in all the wards.
- Office space is wanting as officers' lacks ample working space for efficiency and effectiveness
- VTC has acute shortage of trainers. This has hampered the special initiative to grow technical skills to reach 5000 by 2022.there is need to recruit and employ 42 instructors to ensure the market scan recommendations is achieved.
- Four wards did not have ECDE coordinators thus affected smooth delivery of services.
- Budget allocation for the department largely remains low as compared to the demand, there is need to double the allocation to meet at least half of the demands
- Delayed disbursement of funds brings a barrier in implementation of projects and a program thus affects planning.

Lessons learnt and recommendations

- Vehicle is instrumental in ensuring effectiveness and efficiency thus the department has learned lack of constant supervision is hampered by lack of mobility thus it recommends to be provided with at least three vehicles of which one should be a bus.
- Office space is critical in ensuring output is achieved without hindrance. Ample space is a must to enable staff have a conducive working environment
- Acute shortage of staff in all levels is a major hindrance to service delivery the department recommends recruitment of staff for deployment in all levels.
- Budget allocation for the department largely remains low as compared to the demand, there
 is need to double the allocation to meet at least half of the demands
- Delayed disbursement of funds brings a barrier in implementation of projects and programs thus affect planning. The department recommends timely disbarment of funds.

2.3.8 Medical Services and Public Health

The Strategic Priorities of the Sector

- Increased investment in preventive and promotive health systems.
- Strengthened primary health care systems.
- Financial protection through Health insurance.
- Quality Service delivery with clear Referral health system.
- Leveraging on technology in Health service delivery

2.4. Challenges experienced during Implementation of the 2018/19 ADP

The section should provide detailed information of the challenges experienced by the county during the implementation of the previous plan. This may include: Capacity, funding, legal, policy, risk preparedness etc.

a) Late and inadequate disbursements of funds

Late disbursement of funds by the National Treasury has been a challenge to the county. This cash flow challenge greatly affected the implementation of projects and programmes.

b) Poor Local revenue collection

During the plan period the county was not able to meet the local revenue targets. The following factors affected local revenue collection. The collection system was hampered by limited automation where liquid cash was being collected, staff limited capacity in terms of vehicles, numbers and facilitation and legal challenges and objections. Some activities such as disease surveillance and campaigns, vaccination, quarantine arising from animal diseases also contributed

c) Weak Coordination

Poor coordination among the department especially for programs that have cross sectoral impact Most of county departments are spread across various compounds within Nanyuki with the County Public Service Board stationed in Nyahururu. This makes it tedious for members of staff and public moving from one office to another to get services which could be served from a single point. A lot of time is spent in the execution and coordination of related government services.

d) Delay in processing of legal documents from collaborating institutions.

Various collaborating institutions including Water Resources Management Authority (WRMA) and National Environment Management Authority (NEMA) have a lot of bureaucracy and take a lot of time to process the legal documents thus affecting implementation of development projects

e) Lack of county physical and spatial plans

The county is yet to complete the process of preparation of these plans. Valuation roll has also not been done hindering the enhancement of revenue collection.

f) In adequate staff and facilities

The County has had challenges in staff especially in key technical departments. This in addition to low capacity of the staff in resources management and mobilization, monitoring and evaluation and reporting. Other factors contributing to this include poor working conditions and mobility, inadequate friendly working environment and inadequate working equipment.

2.5 Lessons learnt and recommendations

This section outlines key lessons learnt from the implementation of the previous plan and proposed recommendations for improvement.

• There is need for the government to continue building the capacity of the staff while enlisting the support of the other stakeholders in assessing the risk areas in project

implementation. Should these risks materialize, the government should undertake appropriate measures to mitigate the impact on the budget. To address the issue of high wage bill, the county will limit recruitments to only areas with critical needs. Further the existing staff will be rationalized in order to improve productivity.

- The weak local revenue performance, which has led to overreliance on fiscal transfers from the National Government, remains a major fiscal risk. There is also the risk of low resource absorption mainly caused by delays in enactment of budget related legislations and releasing of funds from the National Treasury as was the case in the year under review. It important therefore for the county to put in place all measures possible to increase local revenue.
- Timely disbursement of funds to projects is essential for timely completion of projects. The National treasury should release funds in time to help the counties manage its cash flows properly.
- There is also need to strengthen the M&E function so that timely follow up can be effected including fast trucking the drafting of M&E policy which are crucial in the formalization of M&E operational structures in the county
- The county will continue seeking development partners (World Bank and UNDP) support in strengthening capacity, constitutional implementation and revenue collection. Citizens' engagement and public participation will be improved to accelerate good working relations and minimize conflicts in county taxation and revenue collection, legislation and business. Therefore, there is need to enhance business activities, investment, revenue mobilization while focusing more on development agenda and cost reduction.
- Citizens' engagement and public participation will be improved to accelerate good working relations and minimize conflicts in county taxation and revenue collection, legislation and business. Therefore, there is need to enhance business activities, investment, revenue mobilization while focusing more on development agenda and cost reduction.
- The process of formulating ADP should start early enough to allow wide consultations in order to create consensus and ownership in development planning and implementation
- There is need for continued capacity building of staff in development planning, implementation and reporting.

CHAPTER THREE: COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS

3.1 Introduction

The ADP 2020/21 focuses on: enhancing access to clean and safe water; Environment and Natural resources management; Food security and agribusiness promotion; water harvesting; Livestock resource development and value addition; fisheries development and promotion; participatory planning and budgeting; efficient and effective delivery of public goods and services; enhanced local revenue collection; youth development; strategic partnerships and collaboration; sustainable infrastructure development through road network improvement, promotion of affordable housing technologies and smart towns initiative; market infrastructure development; Enterprise development fund; informal sector and industrial development; Tourism development and promotion; co-operative development and marketing; Enhanced security and peace building initiatives; Disaster risk reduction; Human Resource Management and Development; Public Participation and Civic Education; Access to Quality Education; Sports and Talents Development; Social Protection and Access to quality health care for all.

3.2 WATER, ENVIRONMENT AND NATURAL RESOURCES

Sector Vision

A water secure county in a clean, safe and sustainable environment.

Sector Mission

To create an enabling environment for the provision of adequate safe water and sanitation services in a sustainable natural environment.

Sector Goal

To provide safe, secure and sustainably managed water and natural resources.

Sector Targets

In 2020/21, focus will be on rural water schemes through water pipe line extension, rehabilitation of dams and other storage structures, rehabilitation and development of new boreholes. The subsector will continue to seek a larger share of the budgetary allocations for the future periods to ensure access to clean, safe and adequate water for all.

Key Statistics for the Sector /Sub sector

Out of the total of 103,114 households in Laikipia County (2009 Census), there were only 30,562 (30%) households with access to piped water and 67,320 (65%) households with access to potable water.

The urban centres have inadequate supply of water under the management of Water Services and Sanitation Companies in Nanyuki, Rumuruti, Wiyumiririe and Nyahururu. There are 10 irrigation schemes in the southern and western parts established through government and development partner's support. The distribution of water sources is uneven across the county with the northern parts

experiencing serious water shortages during dry spells. The government has made efforts to establish a Water Services and Sanitation Company for Dol-Dol

In 2020/21, focus will be on rural water schemes through water pipe line extension, rehabilitation of dams and other storage structures, rehabilitation and development of new boreholes. The subsector will continue to seek a larger share of the budgetary allocations for the future periods to ensure access to clean, safe and adequate water for all.

Ensuring a clean and safe environment and smart towns to sector has intensified garbage collection and disposal in most towns in the county. Clean up campaigns are regularly organized involving schools, colleges and other stakeholders. Under the SMART TOWNS initiatives towns such as Wiyumiririe, Oljabet, Naibor and Dol-Dol are targeted for facelift that will also improve the town hygiene and greening of the towns .

	African Location andMaina)	rural areas
D 11	by 2022	
Degraded water	-Protect catchment areas to	-Rehabilitate degraded catchment areas via afforestation and reclaim riparian
catchment areas	enhance water and	areas
	environmental resources	-Protection and rehabilitation of springs/wells
		-Formulation of water catchment policy, enactment of a bill and its
		implementation -Capacity build the WRUAS and CFAs
		-Capacity build the WKOAS and CFAS -Implementation of guidelines on sustainable sand harvesting
Human wildlife	-Reduce/minimize human	-Erection and maintenance of electric fence
conflict	wildlife conflicts	-Community patrols in collaboration with KWS
Rangeland	Rehabilitation of degraded	-Integrated approach via mechanical, manual and biological methods in
degradation	rangelands	Eradication of invasive species
aegradation	rangerands	-Implement grazing plans and deferment
		-Integrated rehabilitation of rangelands for land health and nutritional safety
		through reseeding
Low county tree	-Achieving minimum national	-Greening schools and other institutions
cover	10% tree cover legal	-Urban forestry, agro forestry and afforestation
	requirements	
Inadequate	-Ensure clean and secure	-Incentivizing waste management
solid waste	environment	-Provide litter bins, recycling, re-use and reduction of organic and inorganic
management	-Implement smart towns	waste materials
system	initiatives	-Create awareness on need to live in clean environments
		-Increasing coverage on solid waste management up to decentralized levels
		-Re-use, recycle and reduce electronic waste(e-waste)
Climate change	Climate change adaptation and	-Capacity building and advocacy
vulgaries	mitigation across all sectors	- Adopt and integrate appropriate climate smart technologies that reduce
		green-house gases emissions

Development	Priorities	Strategies
Needs		
		-County-based climate change policy
		-Implementation of disaster risk reduction policies
Unsustainable	Provide a policy framework on	- Formulation and implementation of customized natural resource policies
extraction and	use of natural resources	and regulations
utilization of		- Mapping of natural resources and gazettement (rivers, swamps, wildlife)
natural		
resources		
Inadequate	Exploration and exploitation of	-Undertake mineral surveys
proceeds from	Minerals resources	-Extract the minerals
minerals		
Inadequate	Provision of adequate water	Adoption and implementation of water structures able to retain water through
climate proofed	supply for use during dry	the dry seasons
infrastructure	season	

Sector/Sub-sector Key Stakeholders

S/No	Key Stakeholder	Role
1.	KWAHO and KEWASNET	Policy formulation and water resources mapping
2.	MKWEP and LWF	Water user regulation along EwasoNyiro river
3.	WRUA's i.e. Nanyuki, Sirimon,	Water regulation along rivers
	Loisukut	
4.	Water Sector Trust Fund (WSTF)	Drilling of boreholes, establishment of water systems in towns and
		policy/bills formulation and enactment, capacity building for both
		government and communities
5.	National Government Ministry of Water	Construction of the proposed Nanyuki, Solioand Amaya Dams
6.	Northern Water Service Board	Drilling and equipping of boreholes, provision of water tanks and
		construction of dams
7.	Water Resource Authority (WRA)	Water regulation and licensing

3.2.1 Capital and Non-Capital Projects

Capital Projects- programmes and projects include: Urban water, sanitation and sewerage; Rural water supply and sanitation; water conservation, protection and governance; solid waste management; human wildlife conflict prevention; natural resources management; climate change adaptation and mitigation and integrated rangeland rehabilitation.

Non Capital Projects- programmes and projects include: Administrative and planning services; personnel services and strategic project monitoring and intervention (Ending Drought Emergencies)

Capital Projects for the 2020/2021

Subprogram	Project name	Location	Description of activities	Green economy consideration	Estimated cost	Source of funds	Time frame	Performance indicators	Targets	Status	Implementing agency
Rural water supply	Lobere dam	Githiga	Desilting of Lobere dam		15,000,000	CGL	2020/21	No of households accessing water	600	New	Water directorate
	Operation and maintenance	County wide	Maintenance, repair of boreholes and hand pumps and fuel subsidy		12,000,000	CGL	2020/21	No of operational boreholes/handpu mps	30	New	Water directorate
	Kisima primary School water project	Githiga	Drilling and equipping of boreholes	Solar equipping	6,000,000	CGL	2020/21	No of households accessing water	300	New	Water directorate
	Kiambogo dam	Marmanet	Kiambogo dam desilting		4,000,000	CGL	2020/21	No of households accessing water	500	New	Water directorate
	Karandi water project	Marmanet	Drilling and equipping of borehole		6,000,000	CGL	2020/21	No of households accessing water	500	New	Water directorate
	Naituria water project	Marmanet	Construction of a masonry water tank		4,000,000	CGL	2020/21	No of households accessing water	1000	New	Water directorate
	Ndaragwit dam	Olmoran	Desilt and fencing of dam		6,000,000	CGL	2020/21	No of households accessing water	300	New	Water directorate
	Minjore dam	Olmoran	Desilt and fencing of dam		4,000,000	CGL	2020/21	No of households accessing water	300	New	Water directorate
	Mutaro borehole water project	Olmoran	Equipping of Mutaro borehole		4,000,000	CGL	2020/21	No of households accessing water	500	New	Water directorate
	Mutamaiyo water project	Rumuruti	Pipeline extension		3,500,000	CGL	2020/21	No of households accessing water	250	New	Water directorate
	Mwireri water project	Rumuruti	Piping extension and distribution from Mwireri borehole.		3,500,000	CGL	2020/21	No of households accessing water	250	New	Water directorate
	Muruku water project	Salama	Drill and equip a borehole at Muruku dispensary		6,000,000	CGL	2020/21	No of households accessing water	500	New	Water directorate
	Kiamariga water project	Igwamiti	Solar equipping		3,900,000	CGL	2020/21	No of households accessing water	800	New	Water directorate
	Kamunya- Kigumo water project	Igwamiti	Drill and equip ping of borehole		6,000,000	CGL	2020/21	No of households accessing water	500	New	Water directorate
	Jikaze water	Nanyuki	Pipeline		2,500,000	CGL	2020/21	No of households	300	New	Water

project		extension				accessing water			directorate
Sweet waters water project	Thingithu	Drill and equip a borehole at sweet waters secondary	3,500,000	CGL	2020/21	No of households accessing water	1000	New	Water directorate
Burgutia water project	Thingithu	Solar equipping of Burgutia borehole	2,500,000	CGL	2020/21	No of households accessing water	200	New	Water directorate
Kamangura water project	Tigithi	Drilling and equipping of a new borehole at Kamangura	5,500,000	CGL	2020/21	No of households accessing water	200	New	Water directorate
Solio dam	Tigithi	Excavation of a solio dam	4,000,000	CGL	2020/21	No of households accessing water	500	New	Water directorate
Mugumo water project	Umande	Construction of water tank	3,500,000	CGL	2020/21	No of households accessing water	1000	New	Water directorate
Kamundia water project	Umande	Construction of masonry water	3,500,000	CGL	2020/21	No of households accessing water	300	New	Water directorate
Sieku sand dam	Mukogodo East	Construct sand dams at Sieku	3,500,000	CGL	2020/21	No of households accessing water	150	New	Water directorate
Ngenia water project	Mukogodo East	Drilling and equipping of boreholes	6,000,000	CGL	2020/21	No of households accessing water	300	New	Water directorate
Naiperere water project	Mukogond o west	Drilling and equipping	6,000,000	CGL	2020/21	No of households accessing water	300	New	Water directorate
Ewaso water poject	Mukogond o west	Solar equipping of Ewaso borehole	3,000,000	CGL	2020/21	No of households accessing water	500	New	Water directorate
Tura Borehole	Mukogond o west	Equippinhg of tura borehole	3,900,000	CGL	2020/21	No of households accessing water	350	New	Water directorate
Lekiji primary school water project	Segera	Drilling and equipping of the borehole	6,000,000	CGL	2020/21	No of households accessing water	250	New	Water directorate
Kimugandura dam	Segera	Desilt kimugandura dam	4,000,000	CGL	2020/21	No of households accessing water	500	New	Water directorate
Nakwang borehole	Sosian	Drill and equip a borehole at Nakwang	6,000,000	CGL	2020/21	No of households accessing water	300	New	Water directorate
Nagum borehole	Sosian	Drill and equip a borehole at Nagum	6,000,000	CGL	2020/21	No of households accessing water	300	New	Water directorate

Strategic Project Monitoring and intervention(Ending Drought Emergencies- EDE)	Ending Drought Emergencies- EDE	Ending Drought Emergencies		10,000,000	CGL	2020/2021	% decrease of population requiring emergency support services	35% reduction in water related emergencies	ongoing	Water, environment and natural resource

3.2.2 Cross-Sectoral Implementation Considerations

Programme	Sector	Cross-Sector Impact		Mitigation Measure
Name				
		Synergies	Adverse Impact	
Water Development;	All Sectors	Technical support,	Incomplete, and	Timely budget provisions for projects
Environment and		regulations and resource	stalled projects	Regular monitoring, supervision and evaluation of the projects
Natural Resources		mobilization		Proper consultations and public participation/governance.
		Adoption of climate smart		Upscaling use of climate smart technologies
		technologies		
		Adoption of rain water		Upscaling roof catchment, harvesting of surface runoffs
		harvesting		
		Promotion of green energy		Up scaling alternative sources of energy at household, institutions and
				enterprises levels

3.3 AGRICULTURE, LIVESTOCK AND FISHERIES

Sector Composition

- Crops development
- Irrigation services
- Livestock production
- Veterinary services
- Fisheries development

Sector Vision

An innovative and commercially oriented agriculture

Sector Mission

To facilitate agricultural transformation in the county from subsistence production to viable commercial enterprises

Sector Goal

- To transform agriculture, livestock and fisheries into commercially oriented enterprises that ensure sustainable food and nutrition security
- To provide supportive framework on co-operation between the national and County Governments and among stakeholders for enhanced development of agriculture

Sector Targets

The sector aims:

- To increase agricultural productivity and total production for food security and income generation
- To improve livestock productivity and incomes from livestock-based enterprises
- To improve and maintain livestock health for livestock market access
- To increase fisheries production and productivity

Key Statistics for the Sector/Sub-sector

The County has 527,854 ha of high potential, 102,062 ha of Medium Potential, 253,023 ha of low potential and63,261 ha of all other land. In addition, there were 70,055 Dairy cattle, 211,200 Beef cattle, 322,000 local goats, 17,580 dairy goats, 344,200 local sheep and2,000 Wool/hair sheep, 409,380poultry, 9,800 camels, 1,420 pigs, 8879 KTBH hives, 3,200 langstroth hives, 29,500loghives, 540 exotic rabbits, 5,360 local rabbits, 12, 890 donkeys, 1 departmental fish farm and 1,362 farmers' fish ponds in 2019.

Strategic Priorities of the Sector/Sub-sector Sector Development Needs, Priorities and Strategies

Development Need	Priorities	Strategy
Food and nutrition	Attainment of household	-Improve access to affordable inputs in agriculture, livestock and fisheries
insecurity	food and nutrition	-Promote use of modern technologies to increase food and feed production
·	security	including strategic food and feed reserve
		-Develop and promote production and utilization of diversified food
		resources
		- Promote irrigation technologies
	Food safety interventions	-Capacity building and awareness creation on food safety
		-Adoption of appropriate post- harvest handling and storage technologies
		and related infrastructure
		-Promotion of quality based payment system for farm produce
		-Safe use and disposal of agrochemicals(containers)
Low productivity	To improve and intensify	- Develop, manage and sustainably use of agriculture, livestock and
levels	agricultural production	fisheries resources
10 (013	agricultural production	-Upscaling disease and pest control
		-Strengthen early warning systems
		-Promotion and development of private sector led supply of quality farm
		inputs
		-Enhance extension and technical advisory services
		· · · · · · · · · · · · · · · · · · ·
T 1	To income a second	-Enhance technology transfer and adoption
Inadequate access	To improve access to	- Make provision for access of quality and affordable farm inputs in
to farm inputs	appropriate, quality and	promotion of commodity value chains
	affordable farm inputs	- Strengthen input and equipment surveillance mechanisms to ensure
		compliance with set standards
		-Promote manufacturing and assembly of farm inputs and implements
		locally
		-Provide appropriate incentives to attract investors on farm inputs and
		implements
Y 1		- Promotion of safe and affordable sources of green energy
Inadequate	To facilitate promotion	-Support the development and packaging of transformative agricultural
extension services	of appropriate and cost-	technologies, information and business opportunities in the agricultural
	effective extension	sector
	services for different	-Support Public-Private Partnerships for development of extension
	ecological zones	services
		-Strengthen research - extension liaisons to accelerate dissemination of
		research outputs
		-Support establishment of an Agricultural Training Centre
Post- harvest losses	To minimize post-	-Adopt appropriate technologies that reduce post-harvest losses
	harvest losses	-Promote appropriate on-farm and community managed storage facilities
		-Develop capacity for value chain players in post-harvest management
Inadequate market	Promote marketing of	-Develop, improve and maintain markets, rural access roads, appropriate
access and linkages	high quality agricultural	energy sources and water supply
	produce and products at	- Develop and expand sustainable market information systems that are
	competitive prices	accessible to all stakeholders
		-Ensure compliance with product safety and quality standards
		-Support the formation of producer marketing organizations to achieve
		sustainable market supplies and ease product certification
		-Intensify product branding and traceability to assure consumers and
		access to domestic, regional and international markets
		- Promote produce bulking and warehousing receipt system for cereals
		-Promote producer development programmes such as contract farming
Inadequate	To upscale agribusiness	- Support development of cottage industries for processing and value

agribusiness and		- Develop capacity of producers/producer organizations to undertake
value addition		agribusiness and value addition
		- Promote Public Private Partnerships for investments in agribusiness and
		value addition
		-Support producers in bulking of agricultural produce
		-Promote research and product development along value chains
Disintegrated	To empower agricultural	-Support and develop agricultural information management systems
information and	value chain actors	- Promote use of ICT in agricultural services to improve communication,
data management	through effective	data management and information sharing
	communication and	-Support provision of timely and reliable information on agriculture,
	sharing of information	livestock and fisheries resources
		-Implementation of Kenya Youth Agribusiness Strategy (KYAS), gender
		and social inclusion in the sector
Poor land use for	To provide for	- Identify, map and regulate zones for agricultural practices in terms of
agriculture,	economically viable,	type of resource, land tenure systems, climatic and ecological diversities
livestock and	socially equitable and	- Promote establishment and maintenance of centers for demonstration of
fisheries	environmentally	appropriate agricultural land use
	sustainable use of	- Promote soil and water access and management programmes
	agricultural land	- Integration of Participatory Scenario Planning(PSP) into agricultural
		planning and implementation
Low uptake	To cushion farmers	-Strengthen insurance approaches, products and frameworks on crops and
insurance products	against losses	livestock

Sector/Sub-sector Key Stakeholders

- National Government (Projects, Fertilizer subsidies)— Financial and technical support
- Multi-lateral agencies (FAO, EU, UNDP) Financial and technical support
- CSOs (SNV, World Vision, CUTS, SOCAA, SACDEP) Financial and Policy support
- Financial institutions (KCB Foundation, Equity Foundation) Financial support
- Resilience Project Technical support.
- National Drought Management Authority Technical support.
- Kenya Climate Smart Agriculture Project Technical support.
- Laikipia Farmers Association (LFA)
- Laikipia Wildlife Forum (Conservancies).
- ASDSP Project.

3.3.1 Capital and Non-Capital Projects

Capital Projects- programmes and projects include: Land and Crop Productivity and Management; Strategic Food Security Services; Agribusiness and Information Management; Water Harvesting and Irrigation Technologies; Irrigation Schemes Infrastructure Development; Livestock Resource Development and Management; Livestock Marketing and Value Addition; Animal Health and Disease Management and Aquaculture Development and Management

Non-Capital Projects-programmes and projects include: Administrative Services; Agriculture Sector Extension Management; Ending Agricultural Drought Emergencies and Agribusiness and Information

Management.

CHAPTER FOUR: RESOURCE ALLOCATION

This section should present a summary of the proposed budget by programme and sector. It also provide a description of how the county government will respond to changes in the financial and economic environment.

4.0 Resource Allocation Criteria

The allocation of resources will be done in line with county priorities as identified through wide consultation with the public and other stakeholders. The county government is committed to continue building capacity to enhance resource management, optimal own revenue collection and entrench good governance in all departments. The county government will continue to implement priority programs, raise productivity and efficiency for sustainable and inclusive growth.

The overall resource basket will be greatly determined by the various sources of that revenue which includes:

a) Equitable share

This is from the shared national revenue as provided for in Article 202 and 203 of the constitution. The county receives part of the constitutionally approved share from the consolidated fund as proposed in the Budget Policy Statement, recommended by Commission for Revenue Allocation and approved by the National Assembly.

b) Own source revenue

This is the revenue arising from imposition of property taxes, entertainment taxes, as well as any other tax and user fees and charges as imposed by County Finance Bill. The key local revenue sources for the County include land rates and rents, business permits, parking fees, county's natural resources revenue and health facilities revenue. Some measures to improve revenue collection include full operationalization of the County Revenue Board, automation of revenue collection, revenue enforcement, close monitoring and introduction of revenue week to sensitize the public on the importance of revenue enhancement for the County.

c) Additional resources

In addition to the equitable share of revenue, the County Government is also expected to get additional resources from the following sources:

- **Conditional and unconditional** allocations from share of the national government as contemplated under Article 202(2) of the Constitution.
- **Grants and donations** from development partners in accordance with section 138 and 139 of the Public Finance Management Act, 2012 and Public Finance Management Act (County Government) Regulations, 2015.

The criteria used in resource allocation across the sectors is determined by

- Mandatory payments for example personnel emoluments (PE)
- The previous budget ceilings
- The commencement and completion of priority projects

4.1 Proposed Budget by Programme

The proposed budget for the programmes identified in chapter three is as summarized in the following table.

4.3 Financial and Economic Environment

In 2018/2019 the county received a total of KShs 4,459,288,833 exclusive of conditional grants comprising of KShs. 3.643 billion from the equitable share and KShs 815.7 million from the local revenue ad depicted in the following table

Grand Total	6,927,959,766	6,067,444,869	87.58

The circumstance may change though not significantly. Therefore, the County government will face resource constraints in addressing key capital projects. Frequent droughts, animal disease outbreaks and ballooning wage bill will pose a challenge to the resource basket available for implementing development projects. The county will be required to invest sufficient funds to support disaster preparedness and to facilitate more cooperation with the national government in security management.

To ensure key projects are undertaken, there will be need to consolidate small projects so that maximum impact may be realized. The role of pre-feasibility studies will be strengthened so that they will guide on the best choices.

There is need to increase revenue collection through enacting facilitative legislation law for enforcement of county laws in addition to:

- i. Increasing the revenue base by consolidating all classes of rates and charges collectable by the county government under one revenue base
- ii. Increasing efficiency in rates and charges collection through adoption of information technology and systems

- iii. Deploying sufficient financial, infrastructural and human resources for rates and charges collection
- iv. Sealing rates and charges administration loopholes that would open the collection process to corruption
- v. Enacting appropriate sector based laws to increase the rates and charges commensurate to current fiscal policies, structure and systems in the Country.
- vi. Effective implementation of annual Finance Acts

4.4 Risks, Assumptions and Mitigation Measures

Indicate risks, assumptions and Mitigation Measurers during the implantation period.

CHAPTER FIVE: MONITORING AND EVALUATION

CHAPTER FIVE: MONITORING AND EVALUATION

5.0 Introduction

Tracking progress in the implementation of the policies, projects and programmes outlined in the ADP will be undertaken through the County Integrated Monitoring and Evaluation System (CIMES). The key structural framework being the County Monitoring and Evaluation Committee. Analysis of CIMES results will demonstrate whether the resources spent on implementing ADP investment programmes are leading to the intended outcomes, impacts and benefits for the county population. In this way, the CIMES will also provide essential feedback to the county budgetary allocation and execution processes, thereby ensuring that future county budget preparation and execution processes are tailored towards maximizing their impact on achieving CIDP targets.

The Monitoring and evaluation performance indicators for each of the sectors are as captured in the following Tables

5.1 Water, Environment, and Natural Resources
