## FOREWORD

The County Government of Laikipia’s development plan is to grow the economy fourfold from the current 100 to 400 billion shillings per year in the medium term. To achieve this goal, the key strategies have been identified i.e:

- Enterprise development program which aims to support 5,000 MSME’s.
- Water for production program which targets to triple agricultural production through its entities, Nawasco and Nyahuwasco to increase the area under irrigation from 9000 hectares to 50,000 hectares, by equipping boreholes, expansion of dams and reticulation of water.
- Smart towns initiative which is focused on increasing the number of businesses and jobs through well planned urbanization to ensure a clean and sustainable environment, using technology as an enabler.

The County Government of Laikipia has limited resources to undertake large projects at once to achieve accelerated growth. The Public Finance Management Act has a provision for County governments to source for external funds through borrowing as a way of financing its budget deficit for development projects. Infrastructure bonds are borrowings/debt to be invested in infrastructure (roads, water & sanitation etc.) projects.

They are issued by governments or private sector through inviting the public to buy the papers such as treasury bonds. Investors (debt buyers) earn interest that is paid up periodically. Bond funds will enable the county government to speed up development projects to realize benefits early then pay later. The Projects accelerate growth of new businesses, jobs, and higher incomes, and generate revenue to repay the loans.

**CECM Finance, Innovation & Enterprise Development,  
County Government of Laikipia.**

## ACKNOWLEDGEMENTS

The County Treasury team of the County Government of Laikipia, wishes to thank the senior management and staff from all departments who contributed to the successful outcome of Laikipia County's public participation of the Infrastructure Bond.

We acknowledge the County Government of Laikipia's officials for their cooperation, planning and coordination to ensure the positive outcome of the exercise. Special thanks go to the residents of Laikipia County for their overwhelming positive responses in favor of the Infrastructure Bond.

We also appreciate the leadership of the county led by H.E. Governor Ndiritu Muriithi, the Deputy Governor H.E. John Mwaniki, the County Secretary Mr. Karanja Njora, and the County Executive Committee Member Finance, Mr. Murungi Ndai, without whose contribution, this exercise would not have been a success.

*Mr. Paul Njenga,*

**Chief Officer - County Treasury,  
County Government of Laikipia.**

## 1.0 SECTION ONE

### 1.1 Introduction

The County Government of Laikipia planned to issue an infrastructure bond in the financial year 2020/21. The infrastructure bond amount is 1.16 billion Kenyan shillings, which will be issued at an estimated rate of 12%, for a tenure of 7 years, with a minimum investment amount of Kenya shillings fifty thousand.

In line with the Kenya's Constitution, County government Act 2012 and Laikipia County Public Participation Act, 2014 requirements on public participation, the County Government organized public participation meetings on the infrastructure bond starting May 2021. Public participation provides an all-inclusive avenue where key stakeholders and the public give views, identify and prioritize Government projects and activities. This process commenced with a webinar held on 4th May 2021. The second round was held between 5th and 7th May 2021 in Nyahururu, Rumuruti and Nanyuki towns while the third round was held between 16th and 18th June, 2021 in the fourteen proposed projects sites.

In these 3 meetings, Participants were required to give their views on whether the county government should raise the infrastructure bond and prioritize the projects to be funded by the bond.

This report contains the public contributions from the three round of meetings on issues and proposed interventions for considerations in the Laikipia county infrastructure bond.

### 1.2 Legal Basis of Laikipia County Infrastructure Bond

Article 212 of the Constitution of Kenya states that, a county government may borrow only-

- (a) if the national government guarantees the loan; and
- (b) with the approval of the county government's assembly.

Section 58 of the Public Finance Management Act 2012 provides the conditions for borrowing as:

- a) To finance a capital project
- b) Borrower has ability to repay the loan and interest.

### 1.3 Borrowing procedures by County Treasury

Section 141 of the Public Finance Management Act, 2012 provides for the Obligations and restrictions with respect to county government borrowing. Section of the Act 144 provides that the County government may issue securities only if authorized by the Act. Pursuant to section 183 of the Act, Public Finance Management (County Government Regulations) 2015 provides the Process of issuance Treasury Bonds by county governments.

Section 183(1) of PFM (County Government Regulations) 2015

- a. County Executive Committee Member for finance shall develop and submit the cash plan, indicating the borrowing requirements to the County Executive Committee for approval of the bond.
- b. after approval by the County Executive Committee, the County Executive Committee Member shall submit the cash plan referred to above to the County Assembly for approval of the borrowing including its terms and conditions.
- c. upon approval by the County Assembly, the County Executive Committee Member shall submit the final cash plan and the approval of the County Assembly to the Cabinet Secretary requesting for the guarantee of the Treasury Bond and their inclusion in the issuance calendar.
- d. the Cabinet Secretary to the National Treasury, after receiving the request from the county government, shall seek the recommendations of the Intergovernmental Budget and Economic Council in fulfillment of the requirements of section 58(2)(i) of the Act.
- e. the Cabinet Secretary to the National Treasury may, upon considering the recommendations of the Intergovernmental Budget and Economic Council, approve or reject the request.
- f. the Cabinet Secretary shall reject a request for loan guarantee with reasons and communicate the same to the concerned County Executive Member
- g. upon approval of a loan guarantee. request, the Cabinet Secretary to the National Treasury shall submit the request to Parliament with recommendations seeking its approval.
- h. the Cabinet Secretary to the National Treasury shall communicate the decision of Parliament on the draft loan guarantee to the respective County Executive Committee Member for finance.
- i. upon approval by Parliament, the Cabinet Secretary shall include such authorized Treasury Bonds in the overall national issuance calendar.
- j. once the issuance calendar is known, when the national governments advertise its bond issuance for a specific month it shall also incorporate those to be issued on behalf of county governments.
- k. on the issuance day, the county whose bond is being issued, shall be represented in the auction committee meeting by the County Executive Committee Member or his or her representative.
- l. after the National Treasury and the county government sign an on-lending agreement, the National Treasury shall transfer the proceeds of the Treasury Bond to the Revenue Fund of that county government and such on-lending transactions shall attract a fee to be determined by the National Treasury.

#### 1.4 Objectives of Public Participation

The public participation meetings were guided by four objectives namely:

- Informing the public what the infrastructure bond is, reasons for placing the bond, borrowing procedures and legality of a county infrastructure bond.
- Prioritization of proposed projects to be funded by the bond.
- Provide information to the public on Economic impacts of the bond.
- Request public approval to county government of Laikipia to place the infrastructure bond.

## 2.0 SECTION TWO

### 2.1 Methodology of the First Public Participation meeting: Webinar

In line with the Kenya's Constitution, County government Act 2012 and Laikipia County Public Participation Act 2014 requirements on public participation, the County Government organized an Online public participation meeting on the Infrastructure bond. The meeting organized by the County Department of Finance and Economic Planning was held on 4th May, 2021 from 10.00am to 1.00 Pm. A webinar link was created and an invitation for the same was circulated countywide.

The following framework guided the meetings:

- i. Approval by the County Treasury
- ii. Advertisement in the county website and online platforms
- iii. Mobilisation of participants
- iv. Actual meetings
- v. Documentation of the report
- vi. Consolidation of County final report
- vii. Validation and adoption of the report
- viii. Dissemination of the report

In the actual meeting, the following structure was applied

- a. Presentation by the County Economic team on infrastructure bond. The presentation highlighted the meaning of infrastructure bond, its legality, and processes of placing the bond.
- b. Presentation by the team on programs to be financed by the bond and their components as follows

#### 1) Smart town initiative:

- Planned towns & enforced building zones.
- Paved roads, walkways, cyclists' paths.
- Lighting for businesses to stay open longer, residents are safer.
- Connected water & sewerage.
- Urban development fund to enable plots/building owners develop higher density units.

#### 2) Water for production:

- focuses on efficient irrigation methods. It includes scheduled maintenance.
- Water for production governance and cost recover.
- Provide market linkages to off-takers and processors.

c. Presentation of the proposed projects, cost, and scope of work follows.

<b>Total GCP</b>	<b>68,895,213</b>	<b>25,149,610,275</b>

**2.2 Summary of Plenary Sessions**

The table below summarizes the issues raised during the meetings.

S/NO	CONCERN	COMMENTS
1	Does the County government have Legal power to borrow?	Yes. Article 212 of the Constitution of Kenya allows a county government to borrow if-(a) the national government guarantees the loan; and (b) with the approval of the county government's
2	What is the interest rate of the bond?	The bond will attract an interest rate of 12%
3	Will the 12% Infrastructure Bond interest rate fluctuate or remain constant throughout the bond tenure?	The bond yield could fluctuate; however, the interest rate remains constant
4	Who can invest in the bond?	All citizens have an opportunity to invest in the bond by opening a CDS account and then purchase the bond
5	What is the minimum investment for the Infrastructure Bond?	Kes. 50,000
6	How will the county government pay the bond?	The bond will be paid from the county's own source revenue
7	What are the Economic impacts of the bond?	Improved livelihoods through establishment of new businesses, Job creation and increase in County gross product
8	What is the duration of the Infrastructure bond?	The duration of the bond is seven years
9	Is the sovereignty of the Infrastructure Bond depended on the current County government regime?	No. In the event of change of government, the new government is obligated to honour this bond which is guaranteed by the national government
10	What is the reason/s for choosing the specified bond amount? Can this amount be changed?	The amount is based on projected analysis of County revenue and is usually restricted to 20% of the said revenue.
11	How will the women groups be accommodated by the Infrastructure Bond?	The women chamas or groups can invest in the bond. Likewise, the enterprise development that will arise from the infrastructure bond projects such as smart towns, will create ample business opportunities for men and women entrepreneurs
12	Will the infrastructure bond taxed?	Infrastructure bonds are tax exempt
13	Does the County government have capacity to implement project of such magnitude	The county government has in past implemented projects of such magnitude such as Nanyuki and Nyahururu infrastructure projects as well as Kariunga dam. The county is also training 140 county officers in postgraduate project management course at Dedan Kimathi University to improve its capacity in project management.

**2.3 Recommendations**

After the plenary discussions, the participants unanimously approved of the infrastructure bond.

## 2.3 Summary of Participants

After the plenary discussions, the participants unanimously approved of the infrastructure bond.

## 2.5 Invitation to the Public Participation Webinar

### Laikipia County Infrastructure Bond Public Participation Webinar Link:

You are invited to a Zoom webinar.

When: May 4, 2021 10:30 AM Nairobi

Topic: Laikipia Infrastructure Bond - Expected Economic Impact

Register in advance for this webinar:

[https://us02web.zoom.us/webinar/register/WN\\_kDpUejqXS1qcFUxgrxIj1w](https://us02web.zoom.us/webinar/register/WN_kDpUejqXS1qcFUxgrxIj1w)

After registering, you will receive a confirmation email containing information about joining the webinar.

## 3.0 SECTION THREE

### 3.1 Methodology of the 2nd Public Participation Meetings

In line with the Kenya's Constitution, County government Act 2012 and Laikipia County Public Participation Act 2014 requirements on public participation, the County Government organized public participation meetings on the Infrastructure bond in May 2021 as a follow up to the online public participation meeting held on 4th May, 2021. The Subcounty level physical meetings organized by the County Department of Finance and Economic Planning were held on 5th, 6th and 7th May 21 at Rumuruti, Nyahururu and Nanyuki respectively.

The following framework guided the meetings:

- i. Approval by the County Treasury
- ii. Advertisement in the county website and online platforms
- iii. Mobilisation of participants
- iv. Actual meetings
- v. Documentation of the report
- vi. Consolidation of County final report
- vii. Validation and adoption of the report
- viii. Dissemination of the report

In the actual meeting, the following structure was applied

- a. Presentation by the County Economic team on infrastructure bond. The presentation highlighted the meaning of infrastructure bond, its legality, and processes of placing the bond.
- b. Presentation by the team on programs to be financed by the bond and their components as follows

#### 1) Smart town initiative:

- Planned towns & enforced building zones.
- Paved roads, walkways, cyclists' paths.
- Lighting for businesses to stay open longer, residents are safer.
- Connected water & sewerage.
- Urban development fund to enable plots/building owners develop higher density units.

#### 2) Water for production:

- focuses on efficient irrigation methods. It includes scheduled maintenance.
- Water for production governance and cost recover.
- Provide market linkages to off-takers and processors.

c. Presentation of the proposed projects, cost, and scope of work follows

### 3.2 Summary of Findings

The table below summarizes the issues raised during the meetings.

S/NO	CONCERN	COMMENTS
1	Does the County government have Legal power to borrow?	Yes. Article 212 of the Constitution of Kenya allows a county government to borrow if-(a) the national government guarantees the loan; and (b) with the approval of the county government's
2	Which County Government entity will administer the bond?	As per section 183 (1) of PFM County Government Regulations 2015, once County Treasury and National Treasury sign an on-lending agreement, the funds will be transferred to the County Revenue Fund CRFF.
3	What is the interest rate of the bond?	The bond will attract an interest rate of 12%
4	Will the 12% Infrastructure Bond interest rate fluctuate or remain constant throughout the bond tenure?	The bond yield could fluctuate; however, the interest rate remains constant
5	Who can invest in the bond?	All citizens have an opportunity to invest in the bond by opening a CDS account and then purchase the bond
6	What is the minimum investment for the Infrastructure Bond?	Kes. 50,000
7	How will the county government pay the bond?	The bond will be paid from the county's own source revenue
8	What are the Economic impacts of the bond?	Improved livelihoods through establishment of new businesses, Job creation and increase in County gross product
9	What is the duration of the Infrastructure bond?	The duration of the bond is seven years
10	How will the government ensure accountability in utilization of the bond?	The projects procurement and implementation will be guided strictly by the Public Finance Management Act, 2012 and Public Procurement and Assets disposal act, 2016.
11	Are there any other types of projects to be funded by the bond?	The Infrastructure bond is focused on building infrastructure through infrastructure related projects i.e. smart towns and water for production. Other projects will be financed through other governments sources of revenues
12	Is the sovereignty of the Infrastructure Bond depended on the current County government regime?	No. In the event of change of government, the new government is obligated to honour this bond which is guaranteed by the national government.

13	What is the reason/s for choosing the specified bond amount? Can this amount be changed?	The amount is based on projected analysis of County revenue and is usually restricted to 20% of the said revenue.
14	How will the women groups be accommodated by the Infrastructure Bond?	The women chamas or groups can invest in the bond. Likewise, the enterprise development that will arise from the infrastructure bond projects such as smart towns, will create ample business opportunities for men and women entrepreneurs
15	Will the infrastructure bond taxed?	Infrastructure bonds are tax exempt
16	Does the County government have capacity to implement project of such magnitude	The county government has in past implemented projects of such magnitude such as Nanyuki and Nyahururu infrastructure projects as well as Kariunga dam. The county is also training 140 county officers in postgraduate project management course at Dedan Kimathi University to improve its capacity in project management.

### 3.3 Recommendations

After the plenary discussions, participants from all the meetings unanimously approved of the infrastructure bond.

### 3.4 Summary of Participants

The meeting was attended by the representatives of Interest groups, Council of Governors, National treasury, The Vice chancellor Dedan Kimathi University, and County leaders led by H.E the Governor. A total of 219 participants.

Date	Venue	No of participants
5th May, 2021	Rumuruti	64
6th May, 2021	Nyahururu	79
7th May, 2021	Nanyuki	76

Citizen Engagement at Rumuruti for the 2nd Public Participation for the Infrastructure Bond.

usdae latem volut quatus, simpori aspiend ellabo. Labo. Seque et utas eos volupic atusani tiaecti usandio riatur sed quaerit, quiatur, sinis eatiur?

Mr. Evans Kamau giving his presentation at Rumuruti on Laikipia County's infrastructure bond.

Mr. Githuku Mwangi giving his presentation at Rumuruti on Laikipia County's infrastructure bond.

Plenary session at Rumuruti infrastructure bond public participation.

## 4.0 SECTION FOUR

### 4.1 Methodology of the 3rd Public Participation Meetings

In line with the Kenya's Constitution, County government Act 2012 and Laikipia County Public Participation Act, 2014 requirements on public participation, the County Government organized public participation meetings on the infrastructure bond starting May 2021. This process commenced with a webinar held on 4th May 2021. The second round was held between 5th and 7th May 2021 in Nyahururu, Rumuruti and Nanyuki towns while the third round was held between 16th and 18th June 2021.

The meetings which were open to the public were held at the sites of proposed projects and attended by residents, community leaders, county, and national government leaders.

The following framework guided the meetings:

- i. Approval by the County Treasury
- ii. Advertisement of the exercise in the Newspaper, county website and public places.
- iii. Mobilisation of participants
- iv. Actual meetings
- v. Documentation of the report
- vi. Consolidation of County final report
- vii. Validation and adoption of the report
- viii. Dissemination of the report

In the actual meeting, the following methodology was applied:

- a. Presentation by the County Economic team on infrastructure bond. The presentation highlighted the meaning of infrastructure bond, its legality, and processes of placing the bond.
- a. Presentation by the team on programs to be financed by the bond and their components.

#### 1) Smart town initiative:

- Planned towns & enforced building zones.
- Paved roads, walkways, cyclists' paths.
- Lighting for businesses to stay open longer, residents are safer.
- Connected water & sewerage.
- Urban development fund to enable plots/building owners develop higher density units.

#### 2) Water for production:

- focuses on efficient irrigation methods. It includes scheduled maintenance.
- Water for production governance and cost recover.
- Provide market linkages to off-takers and processors.

# Nyahururu

Plenary session at Nyahururu for the 2nd public participation of the infrastructure bond.

c. Presentation of the proposed projects, cost, and scope of work

### 4.2 Summary of Plenary Session

S/NO	CONCERN	REMARKS
1	Does the County government have Legal power to borrow?	Yes. Article 212 of the Constitution of Kenya allows a county government to borrow if: (a) the national government guarantees the loan; and (b) with the approval of the county assembly.
2	Why are we issuing a bond?	Because when we invest now, we realize the benefits (business growth, jobs, revenue) early rather than wait for many years to do projects bit by bit. It is the same kind of decision that a person makes to go borrow to buy a plot and build a house now and use the amount they would have paid rent to pay the loan. This person then enjoys the benefits of owning the home now than later. More than 90% of roads built by the National Government are funded by debt. In Laikipia, a good number of roads in Nanyuki, Nyahururu, Rumuruti towns done by the County Government have been funded by loans taken by National Government. It is therefore dishonest when some people from the areas that have benefited from debt-funded development to incite citizens to oppose this bond so that other parts of Laikipia are not developed.
3	When will the bond be issued?	In the Financial year 2021-22 (begins July 1, 2021, to June 30, 2022).
4	What are the benefits (economic impact) of the bond to citizens and businesses?	Improved livelihoods through the establishment of new businesses, job creation, and growth of County revenues. We expect the bond investments will lead to the construction of new commercial and residential buildings and the re-development of low-density buildings, which will create more space for entrepreneurs. We expect over 31,000 new businesses to be set up, employing over 74,000 people in 7 years in these areas. Further, we project that this investment of Ksh1.2bn will contribute Ksh25billion to the County economic output, also known as the Gross County Product (GCP).
5	Who will repay the loan?	The County Government of Laikipia will pay the loan from its revenue. There is no liability (debt) incurred by the beneficiaries of these projects.
6	How have the projects been selected?	Priority is for smart towns and Water for production projects due to their ability to increase the level of economic activities (businesses) to generate jobs, raise household income and County revenue. Further, the projects have been distributed across the wards that have not benefited from major infrastructure projects funded by other sources of County funds.
7	How will the county government pay the bond?	The bond will be paid from the county's own source revenue.
8	Can County Government afford to pay?	Yes. And this has been established by the rating granted by GCR Ratings. Laikipia has been granted investment-grade rating, making it attractive to investors.
9	Will Government increase taxes to pay for the bond?	No, there will not be an increase in taxes. On the contrary, we expect to tap into more businesses that will be established to pay rates.

S/NO	CONCERN	REMARKS
10	What is the duration of the infrastructure bond?	The duration of the bond is seven years, given it will take time to build up revenues.
11	What is the interest rate of the bond?	The expected interest rate is 12%, though the actual rate will be established on the issue date based on market conditions.
12	Will the 12% Infrastructure Bond interest rate fluctuate or remain constant throughout the bond tenure?	The interest rate, also called the coupon rate will remain constant for the period. However, the yield rate, being the market rate earned by bondholders that decided to sell to other investors on Nairobi Stock Exchange may fluctuate.
13	When will investors receive their interest and principal?	Interest will be paid twice a year (every 6 months), while the principal will be paid at the maturity/end of tenure (7years). However, investors who decide not to wait until the bond matures will have the option to trade at the Nairobi stock exchange when the bond is listed.
14	Who can invest in the bond?	All citizens have an opportunity to invest in the bond by opening a Central Depository System (CDS) account at a commercial bank or directly at any Central Bank of Kenya branch. Those who have CDS accounts do not need to open new ones.
15	What is the minimum investment required for the Infrastructure Bond?	Bonds are sold in multiples of Ksh50,000. Therefore, the minimum investment is Kes. 50,000 while the limit is dependent on an investor's capacity and competition from other investors. The county government is considering negotiating with the National Treasury to see whether the minimum amount can be reviewed downwards.
16	How can one be certain that the County will not default on payments?	The County Government will be required to make periodic deposits to what is known as a sinking fund account, to be held at the Central Bank of Kenya. Government borrowing is broadly classified as risk-free. The National Government will issue a guarantee for the bond as required by the Constitution and Public Finance Management (PFM) Act and regulations.
17	Why is my ward (Rumuruti, Marmanet) excluded?	The bond is supplementing other funding sources such as the equitable share and conditional grants and cannot fund all projects. Similar projects are being undertaken in these two wards. Oljabet smart town in Marmanet is being funded by Kenya Devolution Support Program, while Rumuruti smart town is being funded by Kenya Urban Support Program. These two programs are funded by World Bank loans to National Government.

S/NO	CONCERN	REMARKS
18	Why is the Government investing the bond funds in towns only and neglecting rural roads?	As stated in our answer to question 2 above, the bond is only one source of funds. It is not correct to say that Government is neglecting rural roads. On the contrary, the Government is utilizing other innovative funding sources such as the leasing program to upgrade rural roads and link the producers with towns/markets. In the last 16 months, the Government has upgraded over 350km of roads with the leased assets. Our target in the Financial year 2021/22 is to upgrade an additional 50km-60km of roads in each ward, totalling 900km across the County. The acceleration will be enabled by the delivery of additional construction equipment by July 2021.
19	How will the government ensure accountability in utilization of the bond?	The projects procurement and implementation will be guided strictly by the Public Finance Management Act, 2012 and Public Procurement and Assets disposal act, 2015.
20	Are investors assured of payment in case there is a different Governor after 2022 General Elections?	Yes, the investors are guaranteed payment even if there is a new Governor after the 2022 General elections. The Constitution provides that County Governments have perpetual succession, meaning any new administration must honour the obligations of the predecessors. Further, the bond is guaranteed by the National Government as per the law. The County Government is paying debts such as pension for the former Laikipia County Council, Nyahururu and Nanyuki Municipalities and Rumuruti Town Council
21	What is the reason/s for choosing the specified bond amount? Can this amount be changed?	The amount is based on projected analysis of County revenue and is usually restricted to 20% of the said revenue.
22	How will the women groups be accommodated by the Infrastructure Bond?	Women too can invest in the bond singly or jointly and bid for the contracts once the tenders are issued. In addition, they can approach the various County funds such as Enterprise Fund, Economic Stimulus Fund, Cooperative Revolving Fund for financial and advisory support to grow or set up businesses to take advantage of these or groups that can invest in the bond. Likewise, the ample business opportunities catalysed by these investments.
23	Will the infrastructure bond be taxed?	Infrastructure bonds are tax exempt.

S/NO	CONCERN	REMARKS
24	Does the County government have capacity to implement project of such magnitude	The county government has in past implemented projects of such magnitude for example the Nanyuki and Nyahururu infrastructure projects as well as the Kariunga Dam. The county is also training 140 county officers in postgraduate project management course at Dedan Kimathi University to improve its capacity in project management.
25	Will Laikipians be able to invest? Is there a dedicated quota for them? Is there a deliberate effort to encourage them and how will this be done?	Yes. Laikipians will be able to invest. The Bond is open to everyone. For a dedicated quota, we are discussion this with the National Treasury on this since it is a very good idea. We will revert with the final plan. Yes, we are encouraging all through the public participation meetings. Once it is finalized, we will also roll out a communication plan through all medium to amplify and mobilize for uptake.
26	Why are you issuing an infrastructure bond going into a campaign year/ election?	The infrastructure needs are many and remain. We understand that there maybe some anxiety but remember that Government is perpetual. As such, we must continue with the programme of work because elections are part of our democratic cycle. We cannot hold back on development investments due to elections because this continues to reinforce the sad reality where our economy depresses every time we get into an electoral cycle.
27	Are there plans to include survey and planning before the onset of the projects related to the infrastructure bond?	Surveying and planning are a component of the Smart Town Initiative and will therefore be prioritized when implementing the respective projects related to the infrastructure bond.
28	Do the infrastructure bond projects include drainage systems?	Yes. Drainage systems of specific projects have been incorporated into the project designs.
29	How will the Laikipian residents benefit from the infrastructure bond during its implementation?	The County government of Laikipia has requested the residents of each ward to form sub committees which will be responsible for the oversight of the project implementation. Additionally, contractors will be required to prioritise hiring of locals with relevant skills required for project execution.
30	How will quality assurance and standards be upheld for the infrastructure bond related projects?	The project will be supervised by qualified technical county officers. There will also be oversights from the public, and through various ward committees. We will also conduct periodic monitoring and evaluation.
31	What is the risk of diversion of funds designated to one project being transferred to another project?	The infrastructure bond funds allocated will strictly finance the approved projects. There will be internal audits, auditor general reports and oversights from the county assembly for accountability purposes.

S/NO	CONCERN	REMARKS
32	Is there any possibility of extending the scope of the allocated projects?	Yes. The projects will be implemented as per originally approved designs. However, savings are encouraged to achieve maximum benefits for the residents of Laikipia.
33	What is the County's plan to improve the access roads which are not funded by the infrastructure bond?	County Government of Laikipia is upgrading rural roads through the leasing program with an aim of linking production with markets. The current plan is to build 900km of roads in financial year 2021-2022. Priority will be given to the development and maintenance of the essential access roads in each ward.
34	Will there be special consideration given to the local contractors interested in bidding for the infrastructure bond funded projects?	Yes, Laikipia residents will be given a n equal opportunity to apply and bid for the infrastructure bond contracts, subject to the capacity and adherence to the public procurement and disposal act 2015.
35	Which materials will be used in the construction of the roads listed for the smart town initiative? Will it be tarmac, cobblestone or cabro?	We will use different technologies in the development of smart towns based on the recommendations and designs from our technical experts.
36	Will the County government provide any support for the development of plots in smart towns?	The County will negotiate with financial institution to design a fund for enterprise development for example, enterprise fund and economic stimulus fund.

### 4.3 Other Findings

This section provides residents priority projects and interventions across various sectors and wards.

#### 4.5 Conclusion

For citizen concerns regarding projects which were not directly correlated to the development of infrastructure in their respective wards, it was recommended for their funding to be obtained from infrastructure bond projects savings, as well as other projects like the leasing program and other sources of funding.
