EXECUTIVE SUMMARY

Programme-based budgeting is the required form of public sector budgeting in Kenya. It is a form of budgeting that links the government budget and its use of resources directly to defined public policy objectives and intended outcomes through programs. It requires these programs to stretch beyond one fiscal year and to have embedded in them effective measures for its outputs (services) and outcomes - the final tangible impacts 'on the ground'. It is performance based so that spending is assessed against defined performance indicators to ensure its effectiveness, efficiency and value-for-money.

These supplementary estimates have adopted programme-based approach anchored on the County's Vision of "The greatest county with the best quality of life" with focus on enterprise development, industrialisation, manufacturing, agricultural production and infrastructure development. The estimates are arranged in three broad sections.

The First Chapter provides a summary of expected County resources (revenues) and overall expenditures. It details the amounts expected under each category. It gives the county government priority interventions, a summary of Sector ceilings/ Allocations 2021-2022 including conditional grants, statutory obligations, Contractual obligations, transfers to County semi-autonomous entities and a list of entities guiding appropriation of funds.

The Second Chapter provides details of sector vision, mission, and performance overview, major services offered, program objectives, the sector allocations for development and recurrent activities under programmes and sub programs, program outputs and performance indicators of the following county sectors: Public Service, County Administration, and ICT, Finance planning, county development and enterprise development, Medical Services and Public Health, Agriculture, Livestock, Irrigation and Fisheries Development, Lands, Housing and Urban Development, Education and Social Services, Trade, Tourism, Enterprise Development and Co-operative Sector, Water Environment and Natural Resources Sector and the semi-autonomous county entities which are: the County Public Service board, Laikipia County Revenue Board, Laikipia County Development Authority, Co-operative Revolving Fund, Enterprise Development Fund and Innovation, Executive Committee and staff Car & Mortgage fund, Nanyuki Teaching and Referral Hospital, Nyahururu Teaching and Referral Hospital and Rumuruti Municipality. This is also cognisant of the new County Government organisation structure.

The Third Chapter provides a summary of the estimates by sector, programmes, sub-programs, specific projects to be undertaken, their location and the estimated cost.

VOTE TITLE: ROADS, PUBLIC WORKS, LANDS AND ENERGY

A. Vision: ‘To be the leading sector in the realization of the highest quality of infrastructure and sustainable human settlement for socio-economic development.’

B. Mission: ‘To maintain good road network, optimal land resource use and provide infrastructural facilities for sustainable environmental and socio-economic development’

Sector Goals:

- Increase the kilometres of motorable roads
- Provide a county spatial plan
- Upgrade local centres to smart town status
- Facilitate titling process/land ownership document
- Enhance use of renewable energy

C. Performance Overview and Background for Programme(s) Funding

This section describes the context for budgeting in subsectors namely: Physical Planning & Survey, Housing, Public Works and Roads and Renewable Energy Services.

- **Physical Planning and Survey.** Survey and mapping have been identified as a priority in land planning and management. This will provide for a county base map, accurate and up to date digital topographical maps and digital topographical layers for the county and facilitate titling.
- **Housing and Urban development.** This period budget will focus on enhancing and streamlining the tenancy agreement, support affordable housing program and facilitate development of smart town’s and updating of the government houses inventory within the entire county.
- **Public Works.** The subsector will focus on construction, maintaining and managing government buildings and other public works for sustainable social economic development.
- **Roads.** The subsector will focus on roads network improvement.
- **Renewable Energy Services-**will Enhance use of cheap and reliable and renewable energy, lighting up of streets

Major Services/Outputs to be provided in MTEF period /2021/22-23/24

In FY 2021/2022, the department will focus development on clearing pending bills, Service delivery improvement, Land management services, Survey and planning services, Housing Improvement and Urban development initiatives, Public Works, Road network improvement, Mechanization services, and County renewable/green energy services.

D. : Programme Objectives/Overall Outcome

Programme	Sub Programmes	Strategic objective	Expected Outcome	Expected Impact

Major Services/Outputs to be provided in MTEF period 2021/22-23/24

The master plan for water enhancement will guide the short term, medium term and long-term needs in the county spending. Dominant rural areas have been prioritized through rehabilitation of water supply sources (dams, boreholes, springs, storage tanks) as well as establishment of new water schemes in identified clusters. Wildlife-human conflict mitigation initiatives will be addressed through electric fences, community patrols and strengthening resource user associations. Solid waste and drainage management will also get increased funding to address the existing gaps towards ensuring a safe and a secure environment through acquisition of dumpsites, cemeteries and garbage collection trucks. Interventions on climate change adaptation and mitigation, disaster reduction, increasing community resilience and livelihoods will also be addressed in 2021/22 and the medium term. Collaboration with the national government and

development partners will also be strengthened on rangeland management, wetland and forestry protection, development of mega dams and irrigation schemes.

Towards realizing the prioritized programs, the sector is allocated a total of KShs. 202,030,567 in 2021/22 FY, with KShs. 23,019,589 being recurrent expenditure and KShs. 295,261,194 as development expenditure.
