GLOSSARY OF COMMONLY USED TERMS

Programme: Is a group of outputs (goods or services) provided to or for the direct benefit of the community. The outputs grouped together under a programme will share not only a common intended outcome, but other common characteristics such as a shared mode of intervention or common client group.

Project: A project is a set of coordinated activities implemented to meet specific objectives within defined time, cost and performance parameters. Projects aimed at achieving a common goal form a programme.

Outcomes: Outcomes are changes which development interventions bring about on individuals, social structures or the physical environment.

Outputs: Outputs are the services/goods delivered to, or for the direct benefits of, external parties in order to achieve an outcome.

Performance indicators: Performance indicators are quantitative measures which provide information on effectiveness, efficiency and equity result of projects/programmes and organizations. Types of performance indicators that can be developed under projects and programmes include effectiveness (outcome) indicator, output efficiency indicator, output quality indicator and output equity indicator.

FOREWORD

Development Planning is a critical component of the budgeting process. The requirement to plan and the various planning frameworks are stipulated in the Constitution of Kenya 2010, article 220 (2); County Government Act (CGA) 2012, Part XI, on County Planning and the Public Finance Management Act (PFMA) 2012, section 126. The realization of the Annual Development Plan (ADP) 2024/2025 falls along the path towards achieving the County's development aspirations as espoused in the County Integrated Development Plan 2023-2027.

The ADP envisages to capture the strategic priorities for the medium term that reflect the county government's priorities and plans; description of how the county government is responding to changes in the financial and economic environment; programmes to be delivered with details for each programme relating to services or goods to be provided; measurable indicators of performance and proposed budget for each programme.

The ADP further captures payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid; description of significant capital developments; detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county and a summary budget.

The ADP 2024/2025 is linked to the national and international development frameworks (Vision 2030, Fourth Medium Term Plan, Agenda 2063 of the African Union, Sustainable Development Goals) among others through the Laikipia County Integrated Development Plan (CIDP) 2023-2027, Medium Term Expenditure Framework and the sectoral plans

The ADP 2024/2025 was prepared through a consultative process. The foundation of the ADP i.e. the CIDP 2023-2027 captures the people's aspiration through a thorough process of public engagement. From the CIDP, the departments identified their key priority strategies for the FY 2024/2025. The process was supplemented with additional proposes received from the public through their shared memoranda.

The financing of the ADP 2024/25 will be from the key county resources basket which include the equitable share allocation, conditional and unconditional grants, Own Source Revenue and support from development partners. It will be critical that we upscale efforts to mobilize more resources and enhance partnership in order that we achieve higher outcomes.

The County will build on previous achievements, experiences and lessons learnt in the implementation of the previous ADP. The County will satisfactorily implement all strategies necessary to address the development issues facing the people of Laikipia in an effort towards realizing the County Vision of "An Inclusive County with Sustainable Quality of Life".

ACKNOWLEDGEMENT

The preparation of the ADP is a highly consultative exercise requiring the inputs from various stakeholders. The role of each stakeholder is critical in order to capture their strategic priorities for the realization of a well-developed plan that will guide the development process during the financial year.

The preparation of the ADP benefitted from insights by H.E the Governor and H.E the Deputy Governor who gave the strategic direction and leadership of the process. The County Executive Committee Members provided leadership in the respective departments towards the preparation of the plan.

The strong Sector Working Group (SWGs) members from the County departments and the wards under the leadership of the respective chief officers contributed immensely to the preparation of the Plan through articulation of the department's strategic priorities, proposed programmes and projects, the estimated budgets and a clear Monitoring and Evaluation framework which were key towards the completion of the process.

I highly recognize the officers from planning directorate under the leadership of the director who worked tirelessly to ensure that the ADP 2024/25 was delivered in good time and form.

EXECUTIVE SUMMARY

The preparation of the Annual Development Plan (ADP) is articulated in Article 220 (2) of the constitution and Section 126 of the Public Finance Management Act, 2012. The ADP is envisaged to capture the strategic priorities for the medium term that reflect the County Government's priorities and plans. It was prepared with a view of partial implementation of the Third Generation County Integrated Development Plan (CIDP) for the year 2023-2027. In making this plan, several issues were incorporated among them the strategic priorities of the County while taking cognizance of the challenges experienced and the lessons learnt when implementing the previous ADPs.

The Plan adopted a sectoral approach anchored on Laikipia Vision "An Inclusive County with Sustainable Quality of Life". To achieve this, the CIDP 2023-2027 which was formulated after extensive public engagement was a critical reference point in the identification of the strategic priorities in each sector.

The ADP 2024/2025 is organized in five chapters outlined as follows:

Chapter 1: The chapter provides the legal basis of preparing the ADP and a brief overview of the County relating to administrative units, political units, population, physiographic and natural conditions. It further highlights the linkage of the ADP with other plans and the ADP's preparation process. The County covers an area of 9,532 km² and ranks as the 15th largest county in terms of the land size. It has five administrative sub counties, three constituencies namely Laikipia East, Laikipia West and Laikipia North with a total of 15 electoral wards.

According to 2019 KNBS Kenya Population and Housing Census the County recorded a population of 518,560 persons comprising of 259,440 males and 259,102 females with 18 intersex in 149,271 households. Its population was projected at 550,318 and 561,223 persons in 2022 and 2023 respectively, further expected to rise to 572,128 in 2024 and 583,033 in 2025. The population density is estimated to stand at 60 and 61 persons per square kilometer in 2024 and 2025 respectively.

Chapter 2: This chapter provides a review of the implementation of the 2022/2023 ADP. It highlights what was planned and what was achieved by the departments in implementation of 2022/23 Annual Development Plan. Further, it presents the overall budget in the ADP versus the actual allocation and expenditures per department, strategic priorities of each of the sectors, summary of sector/sub-sector programmes and the analysis of capital and non-capital projects of the departments. The challenges experienced during implementation of the 2022/2023 ADP, lessons learnt, and key recommendations are also covered.

Chapter 3: The third chapter discusses each sector's vision and mission, goals and targets by sub sectors, key statistics strategic priorities, programmes and sub-programmes for the FY 2024/2025. Additionally, it highlights the key stakeholders in each sector and their respective roles. This is in addition to the proposed capital and non-capital projects for FY 2024/2025 in each of the sub sector as well as the cross-sectoral considerations.

Chapter 4: This section provides a summary of the proposed budget by sector and by programmes. Also, it discusses the various risks, assumptions and mitigation measures from each department. This comes along with some of the financial and economic constraints facing the County together with measures of responding to these challenges.

Chapter 5: It is the final section of the Plan discussing the Monitoring and Evaluation framework. This framework provides a basis of tracking the implementation of the programmes as outlined in the ADP 2024/2025. It further outlines the data collection, analysis and reporting mechanisms as outlined in the County Integrated Monitoring, and Evaluation System (CIMES).

CHAPTER ONE: INTRODUCTION

This section presents the legal basis of the preparation of the Annual Development Plan (ADP), the overview of the County including the Gross County Product (GCP), administrative units, political units, population, physiographic and natural conditions, linkages with other plans and the process of its preparation.

1.1 Legal Basis for the Preparation of the Annual Development Plan

The preparation of the Annual Development Plan (ADP) is underpinned on various legislations. The Constitution of Kenya 2010, article 220 (2) requires a national legislation to guide on the structure, timing, form and manner of the development plans and budgets of counties to be enacted. The County Government Act (CGA) 2012, Part XI, on County Planning, highlights the principles, objectives and types and purposes of county plans among other issues. In particular, CGA 2012, section 104 (1), stipulates that no public funds shall be appropriated outside a planning framework developed by the county executive committee and approved by the county assembly.

In accordance with the Public Finance Management Act (PFMA) 2012, section 126, every County Government is required to prepare and submit an Annual Development Plan (ADP) in a prescribed format to the county assembly for its approval, not later than the 1st September in each year.

The ADP is to include:

- (a) Strategic priorities for the medium term that reflect the County Government's priorities and plans;
- (b) Description of how the County Government is responding to changes in the financial and economic environment;
- (c) Programmes to be delivered with details for each programme of—
 - (i) Strategic priorities to which the programme will contribute;
 - (ii) Services or goods to be provided;
 - (iii) Measurable indicators of performance where feasible; and
 - (iv) Budget allocated to the programme;
- (d) Payments to be made on behalf of the County Government, including details of any grants, benefits and subsidies that are to be paid;
- (e) Description of significant capital developments;
- (f) Detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the County, including measurable indicators where those are feasible;
- (f) Summary budget in the format required by regulations; and
- (g) Such other matters as may be required by the Constitution or this Act.

1.2 Overview of the County

Laikipia County is one of the 47 counties in the Republic of Kenya and located in the Central Rift Valley region. It is listed in the first schedule of the Kenya Constitution 2010, as County Number 031. The County is cosmopolitan with about 32 communities comprising of Maasai, Samburu,

Rendile, Somali, Pokots, Kalenjins, Meru, Kikuyu, and Turkana among others. The County is largely rural in settlement with the main economic activities being crop farming, livestock rearing, tourism, retail and wholesale trade. The County is a member of the Central Region Economic Bloc (CEREB), Cooperation for Peace and Development Project (COPAD) (formerly the Amaya) and affiliated to the Frontier Counties Development Council (FCDC).

Laikipia borders Samburu County to the North, Isiolo County to the North East, Meru County to the East, Nyeri County to the South East, Nyandarua County to the South, Nakuru County to the South West and Baringo County to the West. According to the Kenya National Bureau of Statistics (KNBS), the County covers an area of 9,532.2 km² and ranks as the 15th largest county in the country by land size.

In 2022, the County recorded an estimated Gross County Product (GCP) of KShs 111.6 billion from KShs 101 billion in 2021 at current prices representing a 10.5% growth. The 2022 and 2021 GCP translates to a per capital GCP of KShs 202,822 and KShs 184,857 which represents a daily per capita GCP of KShs 506.46 and KShs 555.68 in 2021 and 2022 respectively. Agriculture, forestry and fishing remained the key economic activity contributing 26.9% of the GCP with Transport and storage at 14.3% and wholesale, retail and repair of motor vehicles at 10.3% coming at distant second and third respectively.

1.2.1 Administrative Units and Political Units

Laikipia County comprises of six administrative sub counties namely Laikipia East, Laikipia North, Laikipia West, Laikipia Central, Nyahururu and Kirima. The sub county headquarters are at Nanyuki, Doldol, Rumuruti, Lamuria, Nyahururu and Olmoron respectively. The County is further sub-divided into 16 divisions, 57 locations, 115 sub locations and 1,122 villages.

The County has three constituencies namely; Laikipia East, Laikipia West and Laikipia North. There are 15 electoral wards; 5 in Laikipia East (Ngobit, Tigithi, Thingithu, Nanyuki, Umande), 6 in Laikipia West (Olmoran, Rumuruti Township, Githiga, Marmanet, Igwamiti, Salama) and 4 in Laikipia North (Mukogodo East, Mukogodo West, Segera, Sosian) constituencies as shown in Map 1.

1.2.2 Population

According to the 2019 Kenya Population and Housing Census, the total population for the County stood at 518,560 people of which 259,440 were males, 259,102 were females and 18 intersex in 149,271 households. The population was projected to stand at 550,318 and 561,223 persons in 2022 and 2023 respectively. It is further expected to rise to 572,128 and 583,033 in 2024 and in 2025 respectively. Over the 2019-2025 period, the County has registered a positive growth in her population at varying growth rates. The highest growth rate was recorded in 2021 at 2.06 per cent, lowest in 2020 at 1.92 per cent and its projected to be at 1.91 per cent in 2025. Nyahururu Sub County records the highest population at 24% with Laikipia North having the least population at 7% as shown in Figure 1.

The County population density stood at 54 persons per square kilometre in 2019 with Nyahururu administrative sub county being the most densely populated at 190 and Laikipia North administrative sub county being the least at 14 persons per square kilometre. The population density is estimated to stand at 60 and 61 persons per square kilometre in 2024 and 2025 respectively.

Map 2 illustrates the distribution of the population across the County.

[illegible]

The County's population across the various age groups shows that majority of the people are below 35 years of age. This is evidenced by the fact that 73.2 and 72.9 per cent of the total population are below 35 years in 2024 and 2025 respectively. The elderly (over 70 years) on the other hand represents only 3.4 per cent of the total population. The high proportion of the population below 19 years (at 47 percent) together with the elderly population depicts a high dependency rate in the County.

The percentage composition of the various age groups (in 5 years) in the County population shows mixed trends over the 2020-2025 period. The 0-19, 35-39 and 65-74 categories record a downward trend while the rest (20-34, 40-64 and 75 and above) depicts an upward trend. This shows the proportion of the younger population is declining while that of the older population (above 75 years) is increasing over time implying a growing life expectancy.

The percentage composition of the age groups and the respective growth patterns over the 2020-2025 period is depicted in Table 3.

1.2.3 Physiographic and Natural Conditions

The altitude of Laikipia County varies between 960 m above sea level at Ewaso Nyiro basin in the North to a maximum of 2,620 m above sea level around Marmanet forest. The other areas of high altitude include Mukogodo and Ol Daiga Forests in the eastern part of the County at 2,200 m above sea level. The County consists mainly of a plateau bordered by the Great Rift Valley to the West, the Aberdares Ridge to the South and Mt. Kenya to the South East.

The main drainage feature is Ewaso Nyiro North basin with its tributaries having their sources in the slopes of the Aberdares and Mt. Kenya. These tributaries include Nanyuki, Timau, Rongai, Burguret, Segera, Naromoru, Engare, Moyok, Ewaso Narok, Pesi and Ngobit rivers. The flow of these rivers matches the County's topography, which slopes gently from the highlands in the South to the lowlands in the North. The rivers determine to a large extent livelihood patterns in the County. In addition, there are two major swamps in the County namely; Marura Swamp which runs along the Moyot valley in Ol-Pajeta Ranch and the Ewaso Narok Swamp around Rumuruti town.

The South Western part of the County has the highest potential for forestry and mixed farming due to its favorable climatic conditions. The eastern and northern parts of the County are suitable for grazing while the plateau lying in the central and the northern parts of the County is suitable for ranching. The swamps require appropriate management as encroachment for human settlement and agricultural production poses serious threat to their existence.

The County is endowed with pastureland, rangeland, forests, wildlife, undulating landscapes and rivers among others. The high and medium potential land, which is suitable for crop farming,

stands at 3,403.61 Km² and 2,035.61 Km² respectively constituting 57.1 per cent of the total county's land area.

The remaining 4,092.98 Km², which translates to 42.9 per cent is low potential and suitable for livestock and wildlife. The major soils in the County are mainly loam, sand and clay. Black cotton soil, which has inherent fertility, spreads in most parts of the plateau. The dark reddish brown to red friable soils and rocky soils are mainly found on the hillsides.

Laikipia County has seven gazetted forests with an area of about 580 km² and 23 non-gazetted forests with a 1km² area. Mukogodo Dry Forest reserve in Laikipia North Sub-County is the main gazetted natural forest and covers a landmass of 301.89 Km² – with a mosaic of closed forest, open forest and open grasslands. It is inhabited by an indigenous and minority community known as the Yaaku. The forest and surrounding group ranches are located in the core of Kenya's Laikipia–Samburu ecosystem; which hosts the country's second highest density of wildlife – including the highest concentration of elephants outside of protected areas. The forest reserve hosts a critical corridor of regular elephant movement between Samburu lowlands, the Laikipia plateau and Mt. Kenya Forest Reserve (LWF, 2020). Other forests in the County include Rumuruti, North Marmanet, South Marmanet, Shamanek, Lusoi Hill and Lariak in Laikipia West.

The forest cover percentage for the County is 6.71%, which is far below the agreed standard forest cover of 10% for the whole country. Vegetation cover in the gazetted forests is distributed as follows:

- a. Indigenous- 407.496 km²
- b. Plantation - 19.443 km²
- c. Grassland - 34.597 km²
- d. Bush land - 83.782 km²

The County experiences a relief type of rainfall due to its altitude and location. The annual average rainfall totals vary between 573mm and 1,138mm. The areas nearest to the slopes of Mt. Kenya and the Aberdare Ranges record a higher annual rainfall. Doldol, which receives the lowest rainfall recorded an average of 573.6mm of rainfall over a period of five years (2018-2022), while Nyahururu which receives the highest rainfall recorded an average of 1,138.9mm over the same period.

The average rainfall distribution in the County for the year 2020 is as shown in the following Map 3.

Map 3 :Annual Mean Rainfall Distribution

The annual average temperatures of the County ranges between 10.2° C and 24.9° C. This is because of relief and trade winds resulting to cooler conditions in the eastern side and hotter in the low-lying areas in the North. The average temperatures in the period 2018-2022 are as depicted in Table 4.

Table 4: Average temperatures 2018-2022

	Unit	2018	2019	2020	2021	2022*	Average

The average duration of sunshine is between ten and twelve hours daily. The average wind velocity is 7.94km/hr. in a general East to West direction.

1.3 Linkage of the ADP with other plans

The ADP is linked to global (for example the Sustainable Development Goals), regional (for example the agenda 2063 of the Africa Union) and the national planning frameworks. The 5-years national Medium-Term Plans (MTPs) are anchored on the Vision 2030, the Country's long-term development blueprint. The County's medium development plan is the County Integrated Development Plan (CIDP) with the current running from 2023-2027. The ADPs are prepared annually and forms the initial basis of preparing the annual Programme Based Budget (PBB) and where department annual work plans are drawn from.

The linkage of the ADP with other plans is as depicted in the following flow chart.

Figure 2: Linkage of the ADP with other Plans

1.4 Preparation Process of the Annual Development Plan 2024/2025

The preparation process of the Annual Development Plan 2024/2025 involved a wide range of consultations and involvement of both the departments and other stakeholders. The departments presented a review of their performance in 2022/2023, their strategic objectives, together with their proposed programmes and projects.

To enhance public participation, the ADP 2024/2025 considered proposals contained in the memoranda from the members of the public and other interested parties. The memoranda were either emailed or delivered at the offices of the ward administrators and sub county administrators. In addition, the Third Generation County Integrated Development Plan (CIDP) 2023-2027 and the 2023 County Fiscal Strategy Paper (CFSP) Public Participation reports which were developed with wide public consultations and capturing key project proposals were also key reference documents.

The draft ADP 2024/2025 was subjected to the departmental and County Treasury review processes before being submitted to the County Executive Committee for adoption and onward submission to the County Assembly for approval.

CHAPTER TWO: REVIEW OF THE IMPLEMENTATION OF THE 2022/2023ADP

This chapter provides a summary of what was planned and achieved by the departments during implementation of 2022-2023 Annual Development Plan. It presents the overall budget in the ADP versus the actual allocation and expenditures as per department, strategic priorities of the sector, and summary of sector/sub sector programmes, analysis of capital and non-capital projects of the departments, the challenges experienced and lessons learnt during implementation of the 2022-2023 ADP.

2.1. Introduction

This section provides a summary of what was planned and achieved by the sectors. The section also indicates the overall budget in the ADP versus the actual allocation and expenditures as per sector.

Challenges experienced and opportunities identified during Implementation of the 2022/2023 ADP

- Inadequate budgetary allocation
- Delay in enactment of enabling legislation
- Inadequate tools and equipment
- Re-allocation of budgeted funds
- Introduction of new programs mid-term
- Adverse weather conditions
- Increased litigation
- Inconsistent cash flow impeding timely implementation of plans
- Huge uncleared pending bills

Lessons learnt and recommendations

- There is need to fast-track the disbursement of resources
- Enhance controls in expenditure
- Need for early planning and preparation of necessary documents e.g., BQs
- Need for timely implementation of development projects.
- Minimize unbudgeted expenditure
- Unprocedural interference with employment terms has been expensive in-service delivery disruption, litigation and compensation.

2.2.2. Finance, Economic Planning and County Development

Strategic priorities of the sector

- Compliance with the County Government Act (CGA) of 2012 and Public Finance Management Act (PFMA) 2012 and regulation 2015
- Support County integrated development planning
- Strengthen participatory budget formulation and implementation
- Enhance participatory monitoring and evaluation of development programmes/projects
- Strengthen evidence-based policy formulation and decision making
- Enforcement of public procurement and disposal standards and procedures
- Improve county asset management system
- Adhere to Accountings Standards and Procedures
- Inclusive policy formulation and implementation in county development and service delivery

Challenges experienced and opportunities identified experienced during Implementation of the 2022/2023 ADP

- Dilapidated office spaces and inadequate furniture - The Economic Planning Offices and furniture therein are in poor condition, thus the need renovate the office and acquire additional furniture
- Inadequate transport – Currently the directorate has no vehicle to facilitate staff movement more so during field’s visits and operations.
- Financial constraints that hinder the effective implementation of the directorates mandate and operations.
- Transitional challenge following the change of administration and hence policy changes and reversals
- Lingering effects of the Covid 19 pandemic in the economic slowdown leading to depressed own source revenue and delayed national equitable share disbursement
- Prolonged draught and inflationary pressures due to both internal and external shocks i.e fuel price increase, currency depreciation,
- Political uncertainty resulting from the elections and post-election conditions
- Over ambitious revenue targets affecting cash flows
- Failure to adhere to laws, regulations, plans and audit recommendations.
- Delayed approval of statutory documents.
- Delayed disbursement of Equitable Share by the National Treasury impaired service delivery by the County Treasury.
- Delayed procurement process due to suppliers not willing to supply because of delayed payment; poor quality supplies due to the same.
- Poor compliance to procurement rules by departments

Lessons learnt and recommendations

- Strengthen stakeholder integration and consultations in county development planning framework
- Departments to prioritize use of statistical data to improve decision making and policy formulation
- Strengthen effective monitoring and evaluation of projects/programmes to ensure that set objectives are realized as intended.
- Formulation of M&E policy to guide the county M&E structure and allocate a vehicle to facilitate M&E activities
- Strengthen working relationship between the government and CSOs to improve resources mobilization
- Allocation of funding for operationalization of CBEF activities in compliance with the PFMA requirement is mandatory for the County budgeting process.

- Budget management to all County sectors with an aim of guiding sectors on county plans, priorities and County policy direction, citizen engagements, reporting on budget implementation and specific budget activities should be implemented
- Need for Realistic planning and targeting of own source revenues to enhance budget implementation while forestalling accumulation of pending bills.
- Accounting officers to ensure adherence to laws, regulations, plans and audit recommendations to ensure implementation of internal controls and forestall future audit queries.
- Fair allocation of available resources to facilitate each unit to run its programs and achieve its annual performance targets.
- The department adopted end to end procure to pay system (e-procurement) in IFMIS; the supply chain management staff and suppliers were trained on automated procurement processes.
- Documentation of standard procedures in procurement, the procurement manual, formulating the procurement strategy and policy, aligning the procurement strategy with the county strategy document (CIDP)
- Review and preparation of regulations and policy.
- Increase budgetary allocation to Laikipia Enterprise Development Fund

2.2.2.1 Laikipia County Revenue Board

The strategic priorities of the County Revenue Board

- To enhance locally generated revenue
- To automate Revenue collection processes
- To formulate Revenue Board regulations
- Human resource development
- Awareness creation

Opportunities identified and bottlenecks experienced during Implementation of the 2022/2023 ADP

- In an effort to widen the revenue base, the Laikipia County Revenue Board was able to bring on board various stakeholders undertaking the booming business of Air B ‘n’ B.
- The Revenue Board experienced non-frequent exchequer releases hence leading to unpaid bills during the financial year.

Lessons learnt and recommendations

- Despite the challenges occasioned by the post Covid 19 pandemic the Revenue Board improved own source revenue collection, however lack of proper facilitation through exchequer releases was a great hindrance in prompt payment of debtors.

2.2.2.2 Laikipia County Development Authority

The strategic priorities of the LCDA

- Raise funds to enhance value addition for selected agricultural and livestock products.
- Create Linkages to promote contract farming for selected value chains.
- Raise funds to enhance access to selected essential needs and services by affected households.
- Raise funds and partnerships to undertake programs to develop youth skills and empower them for employment.
- Fundraise for climate change mitigation and adaptation projects.
- Raise funds to empower and engage citizens participation in governance.

Challenges experienced during implementation of the previous ADP

- The department does not have a vehicle. This makes it difficult to operate as it has various projects which require supervision and monitoring of programmes in all the wards.
- Inadequate office space as officers' lacks ample working space for efficiency and effectiveness
- VTC has acute shortage of trainers. This has hampered the special initiative to grow technical skills to reach 1000.
- Budget allocation for the department largely remains low as compared to the demand, there is need to double the allocation to meet at least half of the demands
- Delayed disbursement of funds brings a barrier in implementation of projects and a program thus affects planning.

Lessons learnt and recommendations

- Vehicle is instrumental in ensuring effectiveness and efficiency thus the department has learned lack of constant supervision is hampered by lack of mobility thus it recommends to be provided with at least three vehicles of which one should be a bus.
- Office space is critical in ensuring output is achieved without hindrance. Ample space is a must to enable staff have a conducive working environment
- Acute shortage of staff in all levels is a major hindrance to service delivery the department recommends recruitment of staff for deployment in all levels.
- Budget allocation for the department largely remains low as compared to the demand, there is need to double the allocation to meet at least half of the demands
- Delayed disbursement of funds brings a barrier in implementation of projects and programs thus affects planning. The department recommends timely disbursement of funds.

2.2.5 Infrastructure, Lands, Public Works, and Urban Development

Strategic priorities of the sector/sub-sector

- Improve coordination, administration and operations
- Have a well-planned and sustainable human settlement with security of tenure
- Provide quality affordable housing and sustainable urban settlements
- Provide all county building projects with necessary public works services
- Ensure improved road network and interconnectivity within the county
- Increase access to clean, reliable and affordable energy for households and institutions within Laikipia County

Challenges experienced, Lessons learnt and opportunities identified experienced during Implementation of the 2022/2023 ADP

Challenges experienced

- Inadequate Recurrent budget allocation to effectively sustain departmental activities
- Voluminous and late submission of projects documentation requests by implementing departments
- Limited number of competent personnel to carry out building inspection, development control and enforcement
- Exchequer request taking time to process from the time of request to when funds are released to the county
- Obliteration of submitted recommended budget by the County Assembly without reverence to the implementing department.
- Unclear project implementation methodology/approach by the executive. For instance, confusion between using leased equipment, own equipment, contractual approach, cooperation with other governmental agencies (e.g., MTF, NYS). This delays commencement of implementation of projects
- Conflict of interest in the Physical Planning Processes
- Vandalism of streetlight infrastructure

Lessons learnt and recommendations

The following are recommendations geared towards enhancing the efficiency of the department in implementation of ADP;

- Being a fieldwork-oriented department, there is need to increase the budget ceiling for the department to enable allocation of adequate recurrent budget vote
- Individual departments to source for consulting firms (prequalified and or open tender depending on complexity of proposed projects) to prepare project(s) documentation for approval by the department. Selected projects could be considered for supervision by consultants under overall supervision by the department.
- The department to be provided with at least 4 dedicated vehicles and 6 Motorbikes for building inspection supervision;
- Department to continuously dialogue with the County Assembly committee in-charge of Lands and Urban Development to explain departmental priorities to mitigate obliteration of proposed budget.
- County Public Service Board to adequately staff the department with competent staff as per the proposed organogram.
- Training of technical staff (refresher courses i.e., 2 times in a year)
- Need to attract more development partners to assist the department
- Need to fast-track land use planning processes to ensure approval is complete
- Timely planning and funds release to ensure efficiency in implementation

Opportunities Identified

- Opportunity for collaboration between the County Government and donors/partners i.e FAO, KISIP to support the department in projects such as completion of the County Spatial Plan and Planning and Survey of Centres /informal settlements for tenure security. This will bridge the gaps on budgetary allocations
- Operationalization of the Existing Rumuruti and Nanyuki Municipalities through complete transfer of functions, budget/ resources to the municipality for full autonomy to ensure proper urban governance and management structures. Upgrading of Nyahururu to Municipality Status

2.2.6 Agriculture, Livestock and Fisheries

The strategic priorities of the Sector

- Attainment of household food and nutritional security and food safety.
- Improved and intensified agricultural production.
- Improved access to appropriate, quality, and affordable farm inputs.
- Facilitate promotion of appropriate and cost-effective extension services for different agro-ecological zones.
- Minimize post-harvest losses and to cushion farmers against losses.
- Promote marketing of high-quality agricultural produce and products at competitive prices
- To upscale agribusiness and value addition
- To empower agricultural value chain actors through effective communication and sharing of information.
- To provide for economically viable, socially equitable and environmentally sustainable use of agricultural land.

Challenges experienced during Implementation of the 2022/23 ADP

- Late and inadequate disbursements of funds
- Successive and drastic reduction of the department's budget allocation.
- Inadequate transport for programmes' implementation
- Low extension staff to farmer ratio
- Inadequate equipment including diagnostic laboratories and ICT equipment like computers, cameras, soil scanners, GPS machines, clinometers etc.
- Inadequate office space
- Insecurity in some parts of the county hindered smooth implementation of some programmes.
- Expensive inputs and machineries/tools (fertilizers, Seeds, and Irrigation equipment)
- Persistent severe drought and its adverse impacts- This led to crop failure and delays in implementation of projects.
- Pests, Disease out-breaks and Physiological disorders- Frost bite caused losses in maize.

Lessons learnt and recommendations.

- Timely disbursement of funds to projects is essential for timely completion of projects. The National treasury should release funds in time to help the counties manage its cash flows properly.
- There is need for the government to enhance vehicles and motorbikes to enable effective implementation of the programmes.
- There is need to increase the budget for the department.
- Stakeholder / Partner participation in the funding of planned projects is a desired critical complementary approach.
- There is also needed to strengthen the M&E function so that timely follow up can be affected including fast trucking the drafting of M&E policy which are crucial in the formalization of M&E operational structures in the county
- There is need for continued capacity building of staff in development planning, implementation, and reporting.

2.2.7 Water, Environment, Natural Resources and Climate Change

Strategic priorities of the sector/sub-sector

- Increase access to clean water and sanitation
- Protect and conserve catchment areas to enhance water and environmental resources
- Reduce/minimize human wildlife conflicts
- Rehabilitation of degraded rangelands
- Ensure clean and secure environment
- Mainstream locally led Climate Change adaptation and mitigation across all sectors
- Provide a policy framework on use of natural resources
- Reduce average distances to water points
- Achieve the national minimum 10% tree cover legal requirements

Water, Environment, Natural Resources and Climate Change Key achievements 2022/2023

- ❖ In the financial year 2022/2023 the Water directorate:
 - Drilled 13 new boreholes, equipped 14 boreholes and repaired 15 boreholes
 - Constructed 1 new masonry tanks
 - Conducted hydrogeological survey for 17 boreholes
 - Supported 12km piping and pipe laying in 7 community water projects
 - Conducted 3,500m³ water trucking across the county
- ❖ The Environment and natural resources directorate:
 - Collected and disposed 85,564 tonnages of waste
 - Erected a 209.5 km of electric fence
 - Planted 754,000 tree seedlings in collaboration with other stakeholders.
 - Licensed 25 companies to recycle waste mainly plastics and papers.
 - Restored 148ha of rangelands in Laikipia North in partnership with FAO, GEF and Ilmamusu CFA.
 - Conducted a baseline survey for electric fence in Luonyek and North and South of Marmanet Forest.
 - Formation of 3 ward climate change planning committees and trained 1 ward climate change committee.
 - Valuated the Ewaso Narok Ecosystem in collaboration with FAO & NEMA.

Summary of Sector/Sub-sector Programmes in the 2022/2023 Financial Year

Programme Name: General Administration, Planning and Support Services

Challenges experienced, Lessons learnt and opportunities identified experienced during Implementation of the 2022/2023 ADP

Challenges experienced

- During the period under review, drought affected much of the works to be done, and the department shifted much of its budgets to address the drought issue
- Insufficient budgetary allocations and delayed release of funds
- Inadequate legal framework
- The challenge of mobility across the vast county orchestrated by fewer number of vehicles
- Inadequate staff, office spaces and equipment
- Limited budget for funding the operations

Lessons learnt and recommendations

- Need for creation of governance structures in water sector
- Need to implement the water master plan
- Need for Departmental staff capacity building and training
- Need to prioritize programs/projects that are climate related to begin a process of mainstreaming climate change adaptation and mitigation
- Need for close monitoring and evaluation of the CIDP so as not to deviate to a greater extent on proposed projects during the period of budget allocation and implementation.
- Avail appropriate resources to staff for effective and efficient project delivery.
- Enhance collaboration and partnership with stakeholders
- Fast-track the enactment of relevant policies e.g., conservancies policy
- Need for succession planning in the department

Opportunities identified

- Adopt shared work plans and project implementation with national government MDAs and other non-state actors working in the county to enhance achievement of targets.
- Meaningful stakeholder engagement/Public participation is key to successful identification and implementation of interventions.
- Effective utilization of available technical capacity (staff) in planning and execution of activities for optimal results.
- Mainstreaming climate change across all departments within the County
- Working jointly in planning on shared environmental and water resources

2.2.8 Medical Services and Public Health

The Strategic Priorities of the Sector

- Improve access to quality and affordable healthcare
- Strengthen preventive/ Promotive health services across the county
- Train additional health workers
- Continuous medical education

Opportunities identified and bottlenecks experienced during Implementation of the 2022/2023 ADP

- NHIF and other health insurers provide a great opportunity in diversifying and increase health care funding in the county.
- Enactment of a health funds law, with the aim of retaining health funds was an opportunity that needed to be explored.
- Low funding of level 5 hospitals, due to non-retention of their FIF funds. This adversely affected service delivery across the sector.

Lessons learnt and recommendations

- Retention of health funds within the department is key in financing service delivery, this can be done through enactment of a health funds law, that will ring fence health funds for utilization within the department.
- Essential medicines and technologies are key to quality service delivery. Innovative funding strategies like placement, leasing or PPP for some of the high-end technologies need to be explored.
- Revolving pharmacy for medicines and other supplies that are not in the essential need to be explored.
- LHS to harmonize fees and charges for services across all facilities.

CHAPTER THREE: COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS (2024/2025)

3.0 Introduction

This chapter should present sector/sub-sector strategic priorities, programmes and projects for the year FY 2024/2025. The strategic priorities should include settling of pending bills among others. The proposed programmes and projects should envisage a green economy by mainstreaming cross-cutting issues such as Climate Change, Environmental Degradation; Disaster Risk Management (DRM) HIV/AIDS; Gender, Youth and Persons with Disability (PWD); Ending Drought Emergencies (EDE) among others.

3.1 Sector/Sub-Sector Overview

3.1.1 County Coordination, Administration, ICT and Public Service

Sector Composition

Unit	Main mandate
County Administration	To manage, coordinate and supervise administration and delivery of services in the County and all decentralized units and agencies
Public Service Management	To implement the County Human Resource Management and Development strategy
Public Safety, Security, Enforcement and Disaster Risk Management	To ensure enforcement of County laws and regulations To develop strategies and interventions to mitigate Disaster risk To collaborate with the National government in Maintenance of law and order
Information Communication and Technology (ICT)	To provide guidance and support for ICT infrastructure, connectivity and E-Government
Public Participation and Civic Education	To coordinate public participation activities across all departments To monitor, evaluate and report on all County public participation processes
County Public Service Board	To provide for the organization staffing and functioning of the County Public Service To provide for institutions, systems and mechanisms for human resource utilization and development
Public Communications	Internal and external communication
Governors Delivery unit	Track all government project and report to the governor.

Sector Vision: A County with good governance and efficient service delivery

Sector Mission: To provide leadership in policy formulation, public service management and accountability for quality service delivery

Sector goals

Cross-Sectoral Implementation Considerations

Cross-Sectoral Impacts

Programme Name	Sector	Cross-Sector Impact		Mitigation Measure
		Synergies	Adverse Impact	
Land Use Planning and Survey	CGL, Ministry of Lands and Physical Planning, FAO, NGOs	Well planned and Tenure Secure settlements	Lack of Tenure security leading to stunted/uncoordinated development Inadequate development control leading to mushrooming of informal settlements Land Disputes	Rolling out Tenure regularization exercises targeting unplanned urban centres and informal settlements
Housing	Education Finance	Improved and new housing facilities Improved rent contribution to the county fund	Reduced recreational space Resistance to increased rent	Adoption of multi storey building structures Better quality housing facilities
Urban development (smart town)	All departments	Well planned and developed central trading and recreational towns	Destruction of environment	Planting of suitable urban vegetation and paving of walk
Energy Services	KPLC, EPRA, Ministry of Energy, REREC, KETRACO, Independent Power Producers (IPPs)	Regulations, Policy formulation. Integrated planning. Development and supply of Energy	Planning and implementation of projects with little or no county input	Good feasibility studies, integrated multi sectoral planning and implementation
Roads	Trade	Improved trading activity	Destruction of environment	Planting trees to maintain green area

3.1.6 Agriculture Livestock & Fisheries

- Sector Composition:
 - ✓ Crops development
 - ✓ Irrigation development
- Sector Vision: An innovative and commercially oriented agriculture
- Sector Mission: To facilitate agricultural transformation in the county from subsistence production to viable commercial enterprises.
- Sector Goal
 - ✓ To transform agriculture, livestock and fisheries into commercially oriented enterprises that ensure sustainable food and nutrition security.
 - ✓ To provide supportive framework on co-operation between the national and County Governments and among stakeholders for enhanced development of agriculture
- **Sector Targets:** To increase agricultural productivity and total production for food security and income generation

Key Statistics for the Sector/Sub-sector

Crops and irrigation sub-sector have the following key statistic. In terms of farming levels, average small scale farm size (Acres) is 2 acres, while large scale land is over 100 acres. The main crops produced are maize at 116,175 acres, beans at 55,087 acres, wheat 19, 960 acres, Irish potatoes at 6,090 acres and sorghum at 2,493 acres. The main cash Crops Produced in Laikipia includes coffee at 238 acres, pyrethrum at 112 acres and newly introduced geranium at 57 acres. Total Acreage Under Food Crops (Acres) is 199,805. Main Storage Facilities includes Maize Cribs at 150,000, 4 Stores and 3 warehouses. Extension Officer Farmer Ratio stands at 1:3,000. Dams & Water Pans are 600. There is only 1 main Irrigation Canal. Large (> 2,500) (Acres). There are also 31 Small/medium (< 500 Acres) irrigation schemes.

Agro-ecological Zones: UH 2-3: Upper Highland-Sub Humid: Igwamiti, Ndindika, Nyahururu, suitable for dairy, beans, fish, farming. Low Highlands LH 1-5 (Upper midlands Zones), that include Ngobit, Umande, Nanyuki, Thingithu, Igwamiti, Marmanet and Ng'arua. This zone is suitable for maize, wheat, dairy farming, Beans, Fish farming, Sunflower, Barley. UM5 - UM6: Upper Midlands Zones; Include Segera, Nanyuki, Lamuria, Rumuruti, Salama, and upper sections of Mukogodo East are suitable for Irrigated farming.

Agro-ecological Zones: UH 2-3: Upper Highland-Sub Humid: Igwamiti, Ndindika, Nyahururu, suitable for dairy, beans, fish, farming. Low Highlands LH 1-5 (Upper midlands Zones), that include Ngobit, Umande, Nanyuki, Thingithu, Igwamiti, Marmanet and Ng'arua. This zone is suitable for maize, wheat, dairy farming, Beans, Fish farming, Sunflower, Barley. UM5 - UM6: Upper Midlands Zones; Include Segera, Nanyuki, Lamuria, Rumuruti, Salama, Mukogodo and Chumvi areas. This zone is suitable for; Pastoralism (Livestock) pasture, sorghum and millet. LM3 - LM5: Lower Midlands; includes; Laikipia North, Laikipia East and Laikipia West. Suitable for; Ranching, Pastoralism and Sisal.

In addition, there were 76,514 Dairy cattle; 232,266 Beef cattle; 518,469 local goats; 18,186 dairy goats; 325,513 local sheep and 3,172 Wool/hair sheep; 717,776 poultry; 18,675 camels; 2,915 pigs; 36,311 KTBH hives; 10,474 langstroth hives; 34,419 loghives; 1495 box-hives; 1,038 exotic rabbits; 7,590 local rabbits and 20,278 donkeys.

Livestock infrastructure comprises of 50 holding grounds /out spans, 7 Sale yards, 34 private slaughterhouses/slabs, 6 County slaughterhouses/slabs, 15 hides and skins bandas, 26 private A.I service providers and 26 stock routes, 2050 Fish production facilities, 2 institutional aquaponics system, 230 fish stocked community managed public dams, 2private fish fingerlings production hatchery, and 1 fish farm.

Strategic Priorities of the Sector/Sub-sector

Sector Development Needs, Priorities and Strategies

Sector / Sub-sector	Development Need	Priorities	Strategies
Agriculture Sector	Food and nutrition insecurity	Attainment of household food and nutrition security	-Improve access to affordable inputs in agriculture, livestock, and fisheries -Promote use of modern technologies to increase food and feed production including strategic food and feed reserve -Develop and promote production and utilization of diversified food resources
		Food safety interventions	-Capacity building and awareness creation on food safety -Adoption of appropriate post- harvest handling and storage technologies and related infrastructure -Promotion of quality-based payment system for farm produce -Safe use and disposal of agrochemicals(containers)
	Low productivity levels	To improve and intensify agricultural production.	- Develop, manage and sustainably use of agriculture, livestock, and fisheries resources -Upscaling disease and pest control -Strengthen early warning systems -Promotion and development of private sector led supply of quality farm inputs -Enhance extension and technical advisory services -Enhance technology transfer and adoption
	Inadequate access to farm inputs	To improve access to appropriate, quality and affordable farm inputs	- Make provision for access of quality and affordable farm inputs in promotion of commodity value chains - Strengthen input and equipment surveillance mechanisms to ensure compliance with set standards -Promote manufacturing and assembly of farm inputs and implements locally -Provide appropriate incentives to attract investors on farm inputs and implements - Promotion of safe and affordable sources of green energy

	Inadequate extension services	To facilitate promotion of appropriate and cost-effective extension services for different ecological zones	-Support the development and packaging of transformative agricultural technologies, information, and business opportunities in the agricultural sector -Support Public-Private Partnerships for development of extension services -Strengthen research - extension liaisons to accelerate dissemination of research outputs -Support establishment of an Agricultural Training Centre
	Post- harvest losses	To minimize post- harvest losses	-Adopt appropriate technologies that reduce post-harvest losses -Promote appropriate on-farm and community managed storage facilities -Develop capacity for value chain players in post-harvest management
	Inadequate market access and linkages	Promote marketing of high-quality agricultural produce and products at competitive prices	-Develop, improve, and maintain markets, rural access roads, appropriate energy sources and water supply - Develop and expand sustainable market information systems that are accessible to all stakeholders -Ensure compliance with product safety and quality standards -Support the formation of producer marketing organizations to achieve sustainable market supplies and ease product certification -Intensify product branding and traceability to assure consumers and access to domestic, regional, and international markets - Promote produce bulking and warehousing receipt system for cereals -Promote producer development programmes such as contract farming
	Inadequate investments in agribusiness and value addition	To upscale agribusiness and value addition	- Support development of cottage industries for processing and value addition to agricultural produce - Develop capacity of producers/producer organizations to undertake agribusiness and value addition - Promote Public Private Partnerships for investments in agribusiness and value addition -Support producers in bulking of agricultural produce -Promote research and product development along value chains
	Disintegrated information and data management	To empower agricultural value chain actors through effective communication and sharing of information	-Support and develop agricultural information management systems - Promote use of ICT in agricultural services to improve communication, data management and information sharing -Support provision of timely and reliable information on agriculture. -Implementation of Kenya Youth Agribusiness Strategy (KYAS), gender and social inclusion in the sector

	Poor land use for agriculture land	To provide for economically viable, socially equitable and environmentally sustainable use of agricultural land	- Identify, map and regulate zones for agricultural practices in terms of type of resource, land tenure systems, climatic and ecological diversities - Promote establishment and maintenance of centers for demonstration of appropriate agricultural land use - Promote soil and water access and management programmes - Integration of Participatory Scenario Planning (PSP) into agricultural planning and implementation
	Low uptake insurance products	To cushion farmers against losses	-Strengthen insurance approaches, products and frameworks on crops and livestock

Sector/Sub-sector Key Stakeholders

- National Government (Projects, Fertilizer subsidies)– Financial and technical support
- Multi-lateral agencies (FAO, UN-WOMEN) – Financial and technical support
- CSOs (SNV, World Vision, CUTS, SOCAA, SACDEP) – Financial and Policy support
- Financial institutions (KCB Foundation, Equity Foundation) – Financial support
- National Drought Management Authority – Technical support.
- Resilience Project - Technical support.
- ASDP Project
- Laikipia Farmers Association (LFA)
- Laikipia Wildlife Forum (Conservancies).
- Mpala Research Centre research
- Hand in Hand East Africa -Rural development.

Summary of Sector programmes

Programme Name: Administrative and Support Services						
Objective: Provision of efficient and effective agricultural support services						
Outcome: Improved service delivery						
Sub Programmes	Key Output	Key Performance Indicators	Baseline (2022/2023)	Planned Targets (2024/2025)	Resource Requirement	Remarks
Personnel Services	Training needs assessment	No. of training needs assessment reports	0	1	Funds, Personnel, Equipment, Machines, Transport	
	Staffs trained	No. of staffs trained	10	20		
Administrative and office support services	Services delivered	No. of staffs appraised	100%	100%		
	Effective support services	No. of farmers supported	50,000	65,000		
Legislation and proposals development	Policies and proposals development structures in place	No. of policies and proposals developed	0	2		
Programme Name: Crop Development						
Objective: To increase agricultural production						
Outcome: Increased income from farming enterprises						
Sub Programmes	Key Output	Key Performance Indicators	Baseline (2022/2023)	Planned Targets (2024/2025)	Resource Requirement	Remarks
Land and Crop Productivity Management	Undertaken soil sampling and testing in 15 wards	No. of soil samples tested, and results shared with farmers	2,500	3,250	Funds	
	Facilitated access and use of certified and quality planting materials among farmers	No. of assorted fruit tree seedlings planted	20,845	27,099	Funds	
		Tonnes of assorted drought escaping seeds distributed	10	13	Funds	
	Undertaken pest and disease surveillance & control	No. of surveillance & Control interventions done	2	5	Funds	

	Promoted adoption of climate smart agriculture technologies, innovations & Management practices	No. of farmers adopting CSA technologies	1500	1,950	Funds	
	Facilitated access and use of subsidized farm inputs by farmers	No. of farmers supported with logistics and storage	5,000	6,500	Funds	
		No. of farmers purchasing affordable fertilizers	5,000	6,500	Funds	
	Promoted of fruit tree nurseries for high value crops in the county	No. of fruit tree nurseries established by farmers	50	65	Funds	
		No. of fruit tree seedlings purchased from farmers and grown	5,000	6,500	Funds	
	Upscaled cultivation of cash crops	No. of coffee, avocado and Macadamia seedlings procured	8,700	11,310	Funds	
		No. of farmers receiving and growing coffee seedlings	12,145	15,789	Funds	
Strategic Food Security Services and post-harvest management	Kinamba, Mutanga and Sipili warehouses completed	No. of completed warehouses	3	3	Funds	
	Operational Warehouse Receipting System	No. of farmers on WRS	0	400	Funds	
	Developed capacity of farmers on grain storage	No. of farmers trained and acquired grain storage skills	2,000	2,600	Funds	
Agribusiness marketing and value addition	Promoted farm level and group agro-processing and value addition of farm produce	No. of farmers trained and adopted agro-processing and value addition skills	1,500	1,950	Funds	
		No. of agro-processing and value addition facilities established	500	650	Funds	
	Conducted enterprise judging to enhance competition in agribusiness	No. of farmers participating in farm judging	300	390	Funds	
		No. of farmers receiving farm awards	60	78	Funds	
	Enhanced farmer and group entrepreneurial skills	No. of farm business plans developed and promoted	1000	1,300	Funds	

		No. of Farmers adopting FBPs	1000	1,300	Funds	
	Contracted farmers on value chains	No. of farmers recruited into value chains	300	390	Funds	
		No. of contracts signed	300	390	Funds	
	Expanded use of green energy and energy saving devices to enhance agribusiness	No. of demos on energy saving devices	250	325	Funds	
		No. of energy devices installed	250	325	Funds	
Programme Name: Irrigation Development and Management						
Objective: To increase agricultural productivity for food security and income generation						
Outcome: Increased land productivity, income, and employment opportunities						
Sub Programme	Key Output	Key Performance Indicators	Baseline (2022/2023)	Planned Targets (2024/2025)	Resource Requirement	Remarks
Water Harvesting and Irrigation Technologies	Enhanced farmers’ capacity in water harvesting and storage	No. of H/H utilizing efficient water harvesting technologies	2000	3,000	Funds	
		No. of farms utilizing ponds, shallow wells, community water pans	10,000	15,000	Funds	
	Enhanced farmers’ capacity to use irrigation in farming	No. of H/H trained on efficient water use	1000	2500	Funds	
		No. hectarage of new land under irrigation	5225	6792.5	Funds	
		No. of irrigation model farms established	100	250	Funds	
Irrigation Infrastructure Development	Excavated and repaired irrigation schemes	No. of dams/pans excavated / desilted	0	5	Funds	
		No. of boreholes drilled and equipped	0	15	Funds	
		No. of irrigation schemes / water projects rehabilitated and established	0	2	Funds	
	Enhanced water use	No. of drip kits installed	950	1200	Funds	

		No. of storage tanks procured and installed	950	1200	Funds	
	Enhanced access to affordable dam liners	No. of dam liners installed	0	150	Funds

	Promotion of feed pulverizers	No. of Feed pulverizers procured & distributed.	8	60	2.4 M	
	Controlled invasive plant species.	Acreage of controlled invasive plant species	100	500	3.5 M	
	Feedlot production systems supported.	Number of new feedlot production systems established.	2	3	1.5 M	
	Emerging livestock enterprise Promoted & supported	Number of farmers/ CIGs with emerging livestock supported.	0	1	0.5 M	
	Nurtured / supported livestock VC enterprises	Number livestock enterprises nurtured / supported.	37	40	0.5 M	
	Training manuals and pamphlets Produced / distributed	Number of training manuals & pamphlets produced / distributed	200	500	0.4 M	
	Published / enacted livestock policies / bills	Number of published / enacted livestock policies / bills.	1	1	1.0 M	
	Livestock Insured	Number of Livestock farmers with insurance cover (DRIVE)	1700	4000	2.0 M	
	Strengthened early warning system	Number of EWS (Drought condition) surveys conducted	4	4	0.2 M	

	Signed MOUs between community and Conservancies & KFS	Number of MOUs signed between Community and Conservancies / KFS.	2	4	0.6 M	
	Updated contingency plan for livestock production sector	Number of CP reviewed.	1	1	0.3 M	
Livestock Marketing and Value Addition	New milk coolers installed.	Number of new milk coolers (of 5200 ltrs) installed	2	3	18.0 M	
	Milk coolers fully equipped & operationalized	Number of milk coolers equipped & operationalized.	0	4	2.0 M	
	Milk cooler cooperative facilities secured	Number of milk cooler coop facilities fenced	1	2	4.0 M	
	Milk cooperatives supported with milk safety equipment	Number & type of milk safety equipment sets distributed to milk co-ops.	0	60	1.2 M	
	Milk cooperatives supported with milk processing equipment	Number & type of milk processing equipment distributed to milk co-ops	0	5	2.5 M	
	New modern Livestock Markets constructed	Number of new modern livestock markets constructed.	2	3	24.0 M	
	Livestock Markets repaired and equipped with the necessary facilities & equipment	Number of Livestock Markets repaired and equipped with the necessary facilities & equipment	0	2	4.0 M	
	Milk cooperatives supported to go into Value addition(processing).	Number of milk coops supported to go into processing.	0	2	1.5 M	
	Milk coops trained & supported in business enterprise development.	Number of milk cooperatives trained & supported in business enterprise development.	8	10	0.5 M	
	Livestock Marketing Associations (LMAs) capacity build.	Number of LMAs formed, capacity build and supported.	4	5	0.5 M	
	Livestock markets linked to KLMIS system & supported.	Number of Livestock markets linked to KLMIS system & supported.	4	4	0.5 M	

	Market aggregators capacity build and supported	Number of Livestock market aggregators capacity build & supported	3	5	0.5 M	
	Livestock enterprises under contract farming	Number of Livestock enterprises under contract farming.	2	6	0.5 M	
Total Funds needed (Livestock section)					145.5 M	
Programme Name: Veterinary Services Management						
Objective: Improve and maintain livestock health for livestock market access						
Outcome: Reduced incidences of livestock diseases						
Sub Programme	Key Outputs	Key Performance Indicators	Baseline (2022/2023)	Planned Targets (2024/2025)	Resource Requirement	Remarks*
Animal Health, Disease Management and market access	Livestock vaccinated against notifiable diseases	No of livestock vaccinated	54,053 animals	560,000 cattle, sheep and goats	5M	To cover 50% of livestock in the county
	County vaccine bank established with KEVEVAPI	No of doses of vaccines stocked	22,000 doses of vaccines	560,000 doses of vaccines	32M	To cover 50% of livestock in the county
	Cold chain and vaccination support equipment established	No of vaccination support equipment procured	15 automatic syringes, one deep freezer, 7 fridges, 8 cool boxes	30 automatic syringes, 4 deep freezers, 30 cool boxes, 80 dozen of hypodermic needles, 6 first aid kits	0.75M	For vaccines storage and transport and actual vaccination
	Dogs and cats vaccinated against rabies	No of dogs and cats vaccinated	15450 dogs and cats	20,000 dogs and cats	2M	To be done in partnership with Mpala Research Centre
	Livestock Disease Surveillance system activated	No of surveillance equipment (assorted) procured	1	6 sets of assorted equipment	3M	
		No. of surveillance missions undertaken	2	12 missions on monthly basis	1.2M	To be done monthly in all the sub counties
		No of samples analyzed,	50	400	0.5M	Sample collected during surveillance missions

	Staffs' capacity built on modern ways of disease surveillance and reporting	No of staffs trained on KABS mobile and other technologies	9	50	2M	For effective disease reporting using modern surveillance tools
	Enhanced livestock movement control	No of livestock movement permits issued	4,282	6,000	1M	Important for disease control, theft and trade
		No of movement permit books requisitioned	50	120	0.12M	Important for disease control, theft and trade
		No of stock routes inspected	276	350	1M	To monitor livestock movement and control of diseases
	Construct new cattle dips	No of cattle dips constructed	0	4	12M	Important for control of tick-borne diseases
	Cattle dips rehabilitated	No of cattle dips rehabilitated	0	5	10M	Important for control of tick-borne diseases
	Acaricides procured	Litres of Acaricides procured	80	200	0.6M	For communal dips
	Cattle dip committees trained on dip management	No of Cattle dip committees trained on dip management	2	4	0.1M	For dip management
	Vaccination crushes established	No of Vaccination crushes established	2	10	10M	For efficient livestock vaccination
	Disease free compartments established	No of DFCs established	0	1	1M	CDVS to coordinate private ranchers and DVS
	Livestock identification and traceability system (LITS) enhanced	No of animals fitted with RFIDs ear tags	0	30,000	10M	Important for market access and security
	Capacity of staffs on LITS enhanced	No of staffs trained	0	50	0.5M	For efficient and accurate capturing data
	Pig Slaughterhouses established	No of pig slaughterhouses established	0	1	5M	Protection of human health and enhance market access.

	Poultry Slaughterhouses established	No of poultry slaughterhouses established	0	1	5M	
	New Cattle, sheep and goats and camel slaughterhouses established	No of new slaughterhouses established	6	3	30M	
	Existing county slaughterhouses rehabilitated and upgraded	No of slaughterhouses rehabilitated and upgraded	7	6	12M	Improve slaughterhouse hygiene and enhance market access
	Farmer cooperative groups supported with AI subsidy	No of cooperatives supported	0	3	1M	Breed improvement and increased productivity
	Cooperatives and farmer groups capacity build on assisted breeding technology	No of cooperatives and farmer groups trained	0	3	0.3M	
	Leather and leather goods industrial hub established	No of leather Hubs Established	0	2	30M	Domiciled at Nanyuki and Nyahururu VTCs
	County Leather Workshop Established	No of leather workshops established	0	1	10M	As a county pilot for capacity building stakeholders in leather development
	Flaying equipment procured	No of flaying equipment/ knives procured	0	150	0.1M	Improve quality of hides and skins
	Flayers Trained on proper flaying methods	No of flayers trained	0	100	0.1M	Improve quality of hides and skins
Quality Assurance and Regulatory Services	Staffs trained on meat hygiene	No of staffs trained	4	15	1M	To replace the retiring officer and improve service delivery
	Slaughterhouses licensed	No of slaughterhouses licensed	35	34	0.1M	For compliance with hygienic standards
	Meat containers/carrier licensed.	No of meat containers/carriers licensed.	187	190	0.1M	
	Slaughterhouse hygiene materials (assorted) procured	No of SH hygiene materials procured	6 set	10 set	2M	For maintenance of the required slaughterhouse hygiene

	Humane slaughter equipments procured	No of humane slaughter equipments procured	1 stunning gun 10,000	1 stunning gun 20,000	0.25M 1.5M	Adherence to animal welfare and production of quality
	Hides and skins curing premises licensed	No of curing premises licensed	14	15	0.1M	For compliance with the set standards

Capital and Non-Capital Projects for 2023/2024 FY

Capital Projects- programmes and projects include Land and Crop Productivity and Management; Strategic Food Security Services; Agribusiness and Information Management; Water Harvesting and Irrigation Technologies and Irrigation Schemes Infrastructure Development.

Non-Capital Projects-programmes and projects include Administrative Services; Agriculture Sector Extension Management; Ending Agricultural Drought Emergencies and Agribusiness and Information Management.

Capital Project for the 2024/2025 FY

Programme Name: Crop Development										
Objective: To increase agricultural production										
Outcome: Increased income from farming enterprises										
Sub Programme	Project Name Location	Description of Activities	Green Economy Consideration	Estimated Cost (KShs.)	Source of Funds	Time Frame	Performance Indicators	Targets	Status	Implementation Agency
Land and Crop Productivity Management	Soil sampling and testing (Countywide)	Conduct soil sampling and testing	Reduced use of fertilizers	2	CGL, Partners	2024-2025	No. of soil samples tested, and results shared with farmers	4000	Ongoing	DALF
	Access and use of certified and quality planting materials among farmers	Procure and distribute assorted certified seeds	Improve drought resilience	4	CGL, Partners	2024-2025	No. of assorted fruit tree seedlings planted	300,000	Ongoing	DALF
	Pest and disease surveillance & control	Surveillance and control of notifiable pests and diseases	Reduced use of agro-chemicals	2	CGL, Partners	2024-2025	No. of surveillance & Control interventions done	12	Ongoing	DALF
	Climate smart agriculture technologies, innovations & Management practices	Promotion of adoption of climate smart agriculture technologies, innovations & Management practices	Improve drought resilience	10	CGL, Partners	2024-2025	No. of farmers adopting CSA technologies	12,000	Ongoing	DALF
	Farm inputs subsidy programme	Facilitated access and use of subsidized farm inputs by farmers	Improve drought resilience	20	CGL, Partners	2024-2025	No. of farmers benefitting	12,000	Ongoing	DALF

	Promotion of fruit tree nurseries for high value crops in the county	Procurement and distribution of tree nursery equipment and materials	Proper disposals, Biodegradable and sustainability	5	CGL, Partners	2024-2025	No. of fruit tree nurseries established by farmers	100	Ongoing	DALF
	Upscaling cultivation of cash crops	Procurement and distribution of cash crops planting materials.	Improve drought resilience	5	CGL, Partners	2024-2025	No. of coffee, avocado and Macadamia seedlings procured	30,000	Ongoing	DALF
Strategic Food Security Services and post-harvest management	Completion of grain stores	Completion works for Kinamba, Mutanga and Sipili warehouses	Use of solar driers	40	CGL, Partners	2024-2025	No. of completed warehouses	3	Ongoing	DALF
	Warehouse Receipting System	Operationalization of Warehouse Receipting System	Improve drought resilience	20	CGL, Partners	2024-2025	No. of farmers on WRS	2,000	Ongoing	DALF
	Capacity building on post-production losses	Develop capacity of farmers on grain storage	Reduction in food wastes	4	CGL, Partners	2024-2025	No. of farmers trained and acquired grain storage skills	4,000	Ongoing	DALF
Agribusiness marketing and value addition	On-farm and group agro-processing and value addition of farm produce	Promotion of on-farm farm level and group agro-processing and value addition of farm produce	Reduction in food wastes	5	CGL, Partners	2024-2025	No. of farmers trained and adopted agro-processing and value addition skills	300	Ongoing	DALF
	Enterprise judging to enhance competition in agribusiness	Conducting enterprise judging to enhance competition in agribusiness	Improve drought resilience	2	CGL, Partners	2024-2025	No. of farmers participating in farm judging	200	Ongoing	DALF

	Enhancement of entrepreneurial skills	Capacity building on entrepreneurial skills.	Improve drought resilience	4	CGL, Partners	2024-2025	No. of farm business plans developed and promoted	2,000	Ongoing	DALF
	Contract farming	Contracting farmers on priority value chains for export market	Proper disposals, Biodegradable and sustainability	4	CGL, Partners	2024-2025	No. of farmers recruited into value chains	600	Ongoing	DALF
	Energy saving devices for enhanced agribusiness	Procurement and distribution of energy saving jikos and other appliances	Improve drought resilience	5	CGL, Partners	2024-2025	No. of demos on energy saving devices	200	Ongoing	DALF

		Rams breeding stock								
	Promotion / support of Pig Production	Purchase & supply of superior boar Pig breeds for breeding.	Reduce greenhouse gases & diversify livelihoods	1.5 m	CGL	2024 - 2025	Number of superior Pig Boars procured & distributed.	40	Proposed	CGL Partners
	Camel breeds improvement	Purchase & supply of Somali camel bulls breeding stock	Reduce greenhouse gases & stabilize ecosystem	3.9m	CGL	2024 - 2025	No. of breeding stock purchased & distributed.	26	Proposed	CGL
	Pasture/ fodder Production development	Procurement and distribution of Pasture seeds / fodders	Environmental conservation & EDE	5.0 m	CGL	2024 - 2025	Amount (Kgs) of pasture / fodder seeds distributed.	5000 Kgs	Proposed	CGL
	Poultry Improvement	Purchase & supply of improved kienyeji poultry cocks.	Reduce greenhouse gases	5.0 m	CGL	2024 - 2025	Number of improved kienyeji poultry (Cock) procured & distributed.	10,000	Proposed	CGL
	Rangelands Conservation of denuded Rangelands	Reseeding of Denuded Rangelands	Environmental conservation	3.2 m	CGL	2024 - 2025	Acreage of land reseeded	1000 Acres	Proposed	CGL Partners
	Promotion / support of Pig Production	Purchase & supply of superior boar Pig breeds for breeding.	Reduce greenhouse gases & diversify livelihoods	1.5 m	CGL	2024 - 2025	Number of superior Pig Boars procured & distributed.	40	Proposed	CGL and partners
	Strategic Feed Reserves.	Construction of Strategic feed Reserves	Ending Drought Emergencies	16.0 m	CGL	2024 - 2025	No of strategic feed reserve stores constructed.	4 Stores	Proposed	CGL Partners

	Promotion of Motorized grass cutters	Purchase and supply of motorized grass cutters	Ending Drought Emergencies	1.2m	CGL	2024 - 2025	No. of grass cutters distributed	30	Proposed	CGL Partners
	Poultry Development	Procure & distribute poultry eggs Incubators (528 eggs)	Reduce greenhouse gases & diversify livelihoods	2.0 m	CGL	2024 - 2025	Number of Poultry Eggs Incubators (528 eggs) distributed to groups.	15	Proposed	CGL
	Promotion of feed pulverizers	Purchase and supply of Feed pulverizers	Ending Drought Emergencies	2.4 m	CGL	2024 - 2025	No. of Feed pulverizers distributed.	60	Proposed	CGL Partners
	Management / Control of invasive plant species.	Biological, mechanical, manual & Chemical control of invasive plant species.	Environmental conservation and EDE.	3.5 m	CGL	2024 - 2025	Acreage of controlled invasive plant species	500 Acres	Proposed	CGL Partners
	Commercialization of livestock farming / Feedlot systems	Supporting of Feedlot production systems.	Reduce greenhouse gases & EDE	0.5 m	CGL	2024 - 2025	No. of new feedlot production systems established.	2	Proposed	CGL Partners
Livestock Marketing and Value Addition	Milk coolers installation	Installation of New Milk Coolers of 5,200 each.		18.0 m	CGL	2024 - 2025	No. of new milk coolers (of 5200 ltrs) installed	3	Proposed	CGL and Partners
	Operationalization of milk coolers	Equipping & Operationalization of milk coolers		2.0 m	CGL	2024 - 2025	No. of milk coolers equipped & operationalized.	4	Proposed	CGL Partners
	Operationalization of milk coolers	Equipping & Operationalization of milk coolers		2.0 m	CGL	2024 - 2025	No. of milk coolers equipped & operationalized.	4	Proposed	CGL and Partners

	Support of Milk Safety Equipment.	Procurement of Milk safety equipment		1.2 m	CGL	2024 - 2025	No. of sets procured	60 sets	Proposed	CGL KDB
	Support of small Milk Processing equipment	Purchase of small milk processing equipment for deserving dairy cooperatives.		2.5 m	CGL	2024 - 2025	No. of processing equipment procured	5	Proposed	CGL KDB
	Securing of Milk Cooperative facilities.	Fencing of milk cooperative facilities.		4.0 m	CGL	2024 - 2025	Number of milk cooler coop facilities fenced	2	Proposed	CGL and Partners
	Livestock market sale yard / auction yard development	Repair of Livestock markets (Sale yards) and equipping with the necessary facilities.		4.0 m	CGL	2024 - 2025	No. of Livestock Markets repaired and equipped with the necessary facilities.	2	Proposed	CGL & Partners.

Cross-Sectoral Implementation Considerations

This section should provide measures to harness cross sector synergies and mitigate adverse cross-sectoral impacts of projects where necessary.

- **Harnessing Cross-Sectoral Synergies:** Indicate considerations that to be made in respect to harnessing cross-sector synergies arising from possible project impacts.
- **Mitigating Adverse Cross-Sector Impacts:** State measures that may be adopted to avoid or manage potential adverse cross-sector impacts.

Cross-Sectoral Impacts

Programme	Sector	Cross-Sector Impact		Mitigation Measure
		Synergies	Adverse Impact	
Crops Development and Management	Infrastructure	Easier Access to market	Post-harvest losses	Improve access roads
	Health	Production of food for health and nutrition	Malnutrition, Loss of income and loss of farm labour	Employ climate smart agriculture to increase resilience & production
	Wildlife Services	Solving human wildlife conflict	Human wildlife conflict	Fencing national parks and adding security force
Irrigation development & management	Water, Environment and Natural Resources	-Provide Water Resources for irrigation	Conflict on limited water resources	Increase water harvesting infrastructures
	Enterprise development & innovation	-Provide training for staff and the section assist in nurturing SMEs.	None	-
	Trade & Cooperative	Assist in formation of fisheries association	None	-
Livestock Resource Management	Water, Environment and Natural Resources	-Provision of water for livestock	Conflict on limited water resource	Water harvesting
	County administration and Public service	-Provide security against theft of livestock.	Cattle rustling and loss of life	Conflict management peace mission
		-Assist in community mobilization & public participation.	None	-
	Enterprise development & innovation	-Provide training for staff and the section assist in nurturing SMEs.	None	-

	Trade & Cooperative	-The cooperative department assist in formation & training of Milk cooperative societies.	None	-
Veterinary Services Management	Health	Collaboration in Control and sharing of information on zoonotic diseases	Miscommunication leading to increased incidences of zoonotic diseases	Activation and operationalization of one health approach
	Water	Improves sanitation and hygiene in abattoirs, meat processing plants and other livestock value addition plants	Increase incidences of water borne diseases in case of contamination	Ensure water supplied is well treated
			Increase losses due to unreliable water supply	Ensure reliable supply of water by drilling a borehole and installation of water storage tanks in the slaughterhouse
	Environment	Clean environment for well-being of animals	Environment pollution	Comply and enforce NEMA Guidelines
	Land	Allocate suitable land for veterinary infrastructural development	Approving Conflicting infrastructure development	Strict adherence to the spatial plan
	Administration	Enforcement of veterinary related policies	Corruption	Uphold rule of law
	Infrastructure	Open roads livestock markets and slaughterhouses	Spread of livestock diseases as traders divert from the common trade route	Enhance stock routes inspection/ surveillance and enforcement
		Power connectivity to meat processing plants- slaughterhouses	Exacerbate losses in case of power surge/ unreliability	Install a standby generator and or installation of green energy (Solar, biogas)
Fisheries development and management	Water, Environment and Natural Resources	-Provision of water for fish farming	Conflict on limited water resource	Water harvesting
	County administration and public service	-Assist in community mobilization & public participation.	None	-
	Enterprise development & innovation	-Provide training for staff and the section assist in nurturing SMEs.	None	-

3.1.7 Water, Environment, Natural Resources and Climate Change

Sector Composition

- Water services and Sanitation
- Environment, Natural Resources and Climate Change

Sector vision: A County enjoying adequate and quality water and environmental services that are sustainably managed.

Sector mission: To enhance access to quality water and sanitation services while protecting our environment.

Sector Goal: To provide safe, secure and sustainably managed Water, Environment, Natural Resources and Climate Change.

Sector Targets:

- Improve access to clean and safe drinking water.
- Secure environment by intensifying solid and liquid waste management.
- Enhance air and water pollution control.
- Intensify climate change awareness creation, adaptation and mitigation.
- Reduce human wildlife conflicts.
- Provide multi- purpose water infrastructure.

Key Statistics for the Sector

Laikipia County has 145,776 conventional households. Majority of these households 30,613 (21%) draw water from streams/rivers while 18,222 (12.5%) has water piped into their dwelling places, (KNBS, Housing and population census 2019). Urban centres have inadequate supply of water under the management of Water Services and Sanitation Companies in Nanyuki, Rumuruti and Nyahururu.

There are 7 rural water schemes in the within the County established through government and development partner 's support. Water demand in the County as at 2018 was 62,734 million cubic meters and is project to be 95624 million cubic meters for the year 2030 (Laikipia County water master plan, 2021). The distribution of water sources is uneven across the county with the northern parts experiencing serious water shortages during dry spells. The government has made efforts to establish a Water Services and Sanitation Company for Doldol town

The County has a total forest cover of 64,247 hectares against a total county land mass of 946,200 hectares which represents 6.08%, and the tree cover is 12.1% (KFS)

The strategic priorities of the sector.

The following are the development needs for the subsectors and strategic priorities that will help address the identified needs.

Sub-sector	Development Needs	Strategic Priorities
Water services and sanitation	• Increase piped water access from the current 33% to 37% by 2027 • Reduce average distances to water points from 4 Km to 2 Km by 2027 • Improve water supply by water companies from 60% to 70% by 2027 • To improve sewerage systems from 16% to 20% by 2027	• Implementation of Laikipia County Water Management Master plan (2021-2031) • Acquisition of specialized equipment for water infrastructure development • Drilling and equipping of strategic boreholes • Enhance rain water harvesting and storage technologies • Construction of mega dams and water pans) • Construction of multipurpose medium sized water pans • Rehabilitation of existing boreholes and desilting of dams and water pans • Water tracking • Expansion/rehabilitation of water supply and sewerage systems in urban and rural areas • Design, expand and construct a new sewer treatment in Nanyuki and relocate the existing one from the residential area • Completion and enactment of water policy, water bill and water regulation
Environment and natural resources	• Inadequate solid waste system management	• Incentivizing waste management • Provide litter bins, recycling, re-use and reduction of organic and inorganic waste materials • Create awareness on need to live in clean environment • Increasing coverage on solid waste management up to decentralized levels • Re-use, recycle and reduce electronic waste(e-waste)
	• Low county tree cover	• Greening the County and promotion of green economy
	• Climate change mitigation and adaptation	• Capacity building and advocacy • Adopt and integrate appropriate climate smart technologies that reduce green-house gases emission. • Implementation of disaster risk reduction policy

Sector/Sub-sector key stakeholders

	Stakeholder	Thematic Area/Role
1.	National Government Ministries responsible for Environment and Forestry; Tourism and Wildlife & Arid & Semi-Arid & Regional Development	Policy and governance in environmental protection, forestry and wildlife conservation & regional development.
2	Kenya Forest Service (KFS) & Kenya Wildlife Service (KWS)	Forest and wildlife conservation, management, development and support to counties.
3	WASREB, WRA,	Policy and governance.
4	Water Services Trust Fund (WSTF), Central rift water works (CRWWA)	Partnership in water development
5	Habitat for humanity, Batuk	Water and irrigation/Partnership in water development
6.	Kenya Forestry Research Institute (KEFRI) & Wildlife Research and Training Institute (WRTI)	Research in area of forestry and dissemination of information
7.	National Environmental Management Authority (NEMA)	Supervising and coordinating environmental management activities.
8.	National Drought Management Authority (NDMA)	Drought risk management and resilience building.
9	Ewaso Ng'iro North Development Authority	Regional planning and development through sustainable utilization and conservation of natural resources
10.	Frontier Counties Development Council (FCDC)	Policy and capacity development
11.	Mpala Research Centre, CETRAD and Universities	Research in environment, wildlife, forestry, and green technologies
12.	SNV, CARITAS, Northern Rangelands Trust, Laikipia Forum, GROOTS, Action Aid, AGRA, IMPACT	Advocacy, Mobilization, and Capacity Development
13.	World Vision, Food and Agriculture Organization, JICA	Project implementation

3.1.10 Municipality Boards

Rumuruti Municipality Board

Sector Composition

Nanyuki Town is a town in Laikipia County in Kenya's former Rift Valley Province. It is approximately 40 kilometers due north from Nyahururu, on the Nyahururu-Maralal road. Despite being smaller than either Nanyuki or Nyahururu, which are on the Southeastern and Southwestern corners of Laikipia respectively, its central location meant that it was selected as the administrative headquarters of the new County government in 2013

Our vision

To be the most preferred municipality to work, live and invest.

Our mission

To improve the livelihood of our community by providing quality and substantial services, creating and enabling environment for business investment and promoting equity and cohesion

Rumuruti Municipality goals and targets

- Increase road networks
- Enhance infrastructure
- Indicate key statistics for the sector/Sub-Sector
- The strategic priorities of the sector/sub-sector (Identify the development needs and the strategic priorities to address these needs)

Sub-sector	Development Needs	Strategic Priorities
Rumuruti Municipality	Construction of Kandutura bridge Maintenance of town roads and parking facilities	Enhance infrastructure

Rumuruti Municipality key stakeholders: County Government of Laikipia, and KUSP.

CHAPTER FOUR: RESOURCE ALLOCATION

This section presents resource allocation criteria and a summary of the proposed budget by programme and sector. It also provides description of how the county government will respond to changes in the financial and economic environment.

4.0 Resource Allocation Criteria

The allocation of resources will be done in line with county priorities as identified through wide consultation with the public and other stakeholders. The county government is committed to continue building capacity to enhance resource management, optimize Own Source Revenue collection and entrench good governance in all departments. The county government will continue to implement priority programs, raise productivity and efficiency for sustainable and inclusive growth.

The overall resource basket will be greatly determined by the various sources of that revenue which includes:

a) Equitable share

This is from the shared national revenue as provided for in Article 202 and 203 of the constitution. The county receives part of the constitutionally approved share from the consolidated fund as proposed in the Budget Policy Statement, recommended by Commission for Revenue Allocation and approved by the National Assembly.

b) Own Source Revenue

This is the revenue arising from imposition of property taxes, entertainment taxes, as well as any other tax and user fees and charges as imposed by County Finance Bill. The key local revenue sources for the County include land rates and rents, business permits, parking fees, county's natural resources revenue and health facilities revenue. Some measures to improve revenue collection include full operationalization of the County Revenue Board, automation of revenue collection, revenue enforcement, close monitoring and introduction of revenue week to sensitize the public on the importance of revenue enhancement for the County.

c) Additional resources

In addition to the equitable share of revenue, the County Government is also expected to get additional resources from the following sources:

- **Conditional and unconditional** allocations from share of the national government as contemplated under Article 202(2) of the Constitution.
- **Grants and donations** from development partners in accordance with section 138 and 139 of the Public Finance Management Act, 2012 and Public Finance Management Act (County Government) Regulations, 2015.

The criteria used in resource allocation across the sectors is determined by

- Mandatory payments for example personnel emoluments (PE)
- The previous budget ceilings
- The commencement and completion of priority projects

Laikipia County total own source revenue target for 2024/2025 stands at KShs.1.331 billion compared to a target of KShs 1.475 billion in 2023/2024. The following table shows the overall county revenue performances by source since FY 2019/20-2022/2023 and projections for 2024/2025.

4.4 Financial and Economic Environment

In 2022/2023 the county received a total of KShs 5,136,265,679 from Equitable share allocation and KShs. 290,537,179 as conditional grants. The total Own Source Revenue realized was KShs 1,130,000,000. The County also received KShs 161,661,764 from the Equalization fund as depicted in the following table;

The overall revenue performance for the year was 95.6%. There were varied performances of the receivable grants and own source revenues against the projected targets. In particular, the own source revenue realization was below the projected targets thus affecting overall budget implementation.

Due to the foregoing, there could be reduced own source revenue and therefore, the County government will face resource constraints in addressing key capital projects. Frequent droughts, animal disease outbreaks and ballooning wage bill will pose a challenge to the resource basket available for implementing development projects. The county will be required to invest sufficient funds to support disaster preparedness and to facilitate more cooperation with the national government in security management.

To ensure key projects are undertaken, there will be need to consolidate small projects so that maximum impact may be realized. The role of pre- feasibility studies will be strengthened so that they will guide on the best choices.

There is need to enhance local revenue through focused legal framework and policies that will encourage business revival and compliance. Enforcement measures should be taken to ensure that payments of the approved fees and charges are received on time. This is in addition to:

- i. Increasing the revenue base by consolidating all classes of rates and charges collectable by the county government under one revenue base

- ii. Increasing efficiency in rates and charges collection through adoption of information technology and systems
- iii. Deploying sufficient financial, infrastructural and human resources for rates and charges collection
- iv. Sealing rates and charges administration loopholes that would open the collection process to corruption
- v. Enacting appropriate sector-based laws to increase the rates and charges commensurate to current fiscal policies, structure and systems in the Country.
- vi. Effective implementation of annual Finance Acts

CHAPTER FIVE: MONITORING AND EVALUATION

This chapter should discuss the county monitoring and evaluation framework as outlined in the county Integrated Monitoring and Evaluation System (CIMES). The Constitution of Kenya article 232 and all the legal provisions that provide for M&E will guide the M&E process, methods, and tools. The regulations include County M&E Policy in line with the National M&E Policy, CIMES Guidelines, Kenya Norms and Standards for M&E and Kenya Evaluation Guidelines

The County Monitoring and Evaluation structure will be comprised of the County Assembly Committee responsible for Planning, County M&E Committee (CoMEC), M&E Technical Oversight Committee and Sector M&E Committees. The Directorate of Economic Planning will coordinate and function as the secretariat to the Committee. The CoMEC will ensure that the county has quality information needed in making decisions, direct all county M&E activities, and provide quality assurance in data collection, analysis and reporting. The CoMEC will also oversee the overall county compliance, results of projects implementation and service delivery within the CIDP and ADP. Other fora's that will support County monitoring and evaluation includes County Citizens Participation Forum.

The County will carry out quarterly and annual M&E activities, which will include data collection, analysis, project verification visits, reports compilation and dissemination.
